NOTES ON NEWS OF THE DAY.

THE Democrats of the third Louisiana district have nominated a thorough protectionist to succeed the dead Congressman Gay. His name is Andrew Price, his age is 35, and he is a son-in-law of Gay and very rich.

THE Virginia Democratic state convention at Richmond yesterday reaffirmed its adherence to the national platform and established policies of the party, and then called for the abolition of the internal revenue tax on tobacco and fruit brandies. This is swallowing Democracy with a mental reservation.

OVER twenty persons killed by lightning and a million dollars worth of crops, animals and railroads destroyed, is the record of the last storm in that part of the Missouri valley bordering on Nebraska, Kansas and Missouri. This phenomenal season is evidently bound to maintain its singular line of conduct till snow flies.

THE Grand Army men have won a partial victory in their fight for a cent a mile rate to the national encampment at Milwaukee. The Louisville, New Albany and Chicago company yielded yesterday and was joined by the Kankakee. The Panhandle is expected to be the next to succumb, and then the break will extend to all the lines.

IT is now claimed that Mrs. Maybrick is the victim of the perjury of Mrs. Yopp, the principal witness against her. This woman was accused of perjury and conspiracy in Montreal several years ago, for the ruin of another woman's character. The condemned woman's friends are now in hopes of saving her life, and Secretary Blaine will be asked to intercede for her.

THE arrest of Justice Field for complicity in the shooting of Terry has a farcical look, but the Justice himself recognizes the propriety of submitting to the forms of law. He will continue to hold court, and another officer will guard him until Nagle's release. The danger to him is hardly lessened by Terry's death, as Terry's widow is handy with the pistol and as desperate as her recent husband.

PHILIP W. MCKINNEY has carried off the Virginia Democratic gubernatorial nomination, quite unexpectedly to Editor O'Bierne, Congressman O'Ferrall and the venerable Venable. McKinney is a "hustler" in politics and has put in his work chiefly in the "Black Belt," where the negroes remember him as a serious impediment in their path to the ballot box. A Democratic nomination in Virginia is not equivalent to an election this year.

PRESIDENT NORVIN GREEN of the Western Union Telegraph having abandoned letter writing, he and Postmaster General Wanamaker have settled down to an amicable conference in regard to government rates. As the mill per word rate has never been officially promulgated it has not gone into effect, and the price for government business awaits the adjustment, which is expected to be accomplished soon. This matter has brought upon the Postmaster General a great deal of needless and undeserved abuse from some of the loudest opponents of "monopoly," "trusts" and "plutocracy."

THE Duke of Fife declines the government help proffered for the support of his wife, the daughter of the Prince of Wales. He says he is able to support her in becoming style himself, and his income of a half million a year justifies this assumption. English taxpayers will regret that he did not furnish this information to Parliament before the extra allowance of $36,000 a year was voted to the Prince for his daughter. "Wales" will now pocket the cash himself. The Duke's refusal to accept the money under the circumstances is a good deal like Gov. Hill's vetoes of Legislative appropriations after the tax rate had been adopted.

> Sheriff Flack is open to the severest reprobation because of his domestic misconduct; but he will not be led by pecuniary considerations to act as hangman next week Friday. He has hired Joe Atkinson, the professional hangman, to do the job of hanging the five murderers. *New-York Sun.*

The *Sun* never misses the opportunity to give the late Grover Cleveland a whack. And yet if Mr. Flack wishes to be President he should fulfill as nearly as possible all the conditions which led Mr Cleveland up to that high eminence. He has been Sheriff of his county; he has run a sort of parallel to Mr. Cleveland, Sheriff, in his domestic affairs. Now let him hang at least two of the murderers with his own hand. Then, in spite of Tammany's offended moral sense, he may be President.

THE ocean race between the new Atlantic steamships New York and Teutonic has been completed. The former reached Sandy Hook at 11:58 o'clock Tuesday night and the latter 20 minutes later. The time of the New York from Queenstown was 6 days, 14 hours and 20 minutes, and of the Teutonic 6 days, 14 hours and 45 minutes. The "maiden" or first record of a new ship was 6 days, 15 hours and 41 minutes, made by the America in 1884. The record of the new City of Paris is 6 days, 18 hours and 43 minutes. For seventeen hours on the voyage both the New York and the Teutonic were obliged to "slow down" on account of the fogs.

THE Democrats are sending up a great "boss laff" all over the state at the Republican proposition to nominate Charles F. Hauselt for Secretary of State on a high license platform. The thing that amuses the Democrats is the evident supposition that such a nomination would draw German votes away from the Democratic party as long as our "Whisky Governor" leads it. This is assuming that there are no Germans in the state who have a deeper interest in tax reduction than they have in the liquor traffic. We do not believe that all of our German fellow citizens or any considerable portion of them lean that way. They are sober men and hold a foremost rank among tax-payers. They are willing that the liquor trade should pay its fair proportion of the tax burdens. Mr. Hauselt is a representative German-American, an Emigration Commissioner, President of the German Society, and an honest and capable man. His nomination would be followed in about forty days by his election.

BROWN-SEQUARD ELIXIR.

Two Victims Succumbed To-Day—The Facts.

"REGULATORS" AT THE BAR,

Charged with Murder, Jail-Breaking and Other Crimes.

THE TERRY FUNERAL.

What Judge Porter May Do—A Row Expected.

CASE OF MRS. MAYBRICK.

VICTIMS OF BROWN-SEQUARD ELIXIR.

Two Men Die From the Effects—Another Man Who Sufferes Intense Pain.

By Telegraph to The Freeman.

CINCINNATI, Aug. 16.—On Saturday Dr. George K. Taylor, one of the best known physicians here, invited Charles S. Steele, who was almost helpless from paralysis, to enter his office and the doctor injected a quantity of the Brown-Sequard elixir in each of his hips without Steele knowing what it was. The man suffered intense agony, but was told he would soon get well. The agony was so great that on Monday he called on Dr. Taylor, who told him the more pain he had the more complete would be his final recovery. Yesterday Steele sent for Dr. Watson, who found the inside of Steele's thighs terribly inflamed, swollen and in a mottled condition, as if gangrene had set in, though it may prove only blood poisoning. Steele has a high fever and is out of his right mind. He has a large family which he supported by taking orders for coal. His friends have retained a lawyer to sue Dr. Taylor for heavy damages.

SHAMOKIN, Pa., Aug. 16.—George Robertson, of Mount Carmel, has died from the effects of an injection of the Brown-Sequard elixir made in his breast. He suffered from inflamation of the bowels. The new remedy was administered by a competent physician, but its first effect was to make the patient almost delirious from pain. He died two hours after the operation.

TROY, Ohio, Aug. 16.—The only experiment made with the Brown-Sequard Elixir in this town has proved fatal. Dr. Zerron used it yesterday upon William Liedel, a sufferer from rheumatism, and the latter died this morning.

LIMA, Ohio, Aug. 16.—Dr. A. Miesse prepared some of the Brown-Sequard elixir yesterday, and to remove all impurities passed it through filtering paper and began his microscopical examination and found it pure from any animal life. His examinations were repeated every 15 minutes, and at 45 minutes from the time the elixir dropped from the filter he discovered in the cells germs of bacteria in small numbers [micezmes]; in one hour and 15 minutes many of them and bioplasm; in one hour and a-half a perfect mass of living animals. The Doctor does not wish to be understood as declaing that the elixir is not a useful medicine, but wishes to make a puplic test, so that other physicians may be on their guard.

ROW EXPECTED AT TERRY FUNERAL.

Judge Porter Proposes to Deliver Funeral Oration and Denounce Field.

By Telegraph to The Freeman.

NEW-YORK, Aug. 16.—A special from Stockton, Cal., says: There is every prospect of a row at the Terry funeral this afternoon and violence afterward. One of Terry's friends, Judge Porter, of Arizona, proposes to deliver the funeral oration. He says he will go for Field and denounce Terry's shooting as foul murder. If he does some of the leading citizens declare they will stop him, if they have to use force. Feeling runs very high in the town. Last night groups of men discussed the case for and against the Terrys. The ranchers and farmers from the interior came into town and mingled with Stockton people. Discussion on the street corners became loud and boisterous. Here and there an old resident would say a bitter word against Justice Field. In many instances the killing of Terry was pronounced cold-blooded murder. In consequence of talk upon the streets some alarm is felt at the County jail, where Nagle is confined. No one is allowed to see the prisoner. Six officers are on duty at the jail. The jail is an old two-story brick structure, intended as a make-shift until the new Jail and Court House reach completion. During the night a small number of the Terry followers, all rather desperate in character, gathered near the Jail and made a careful inspection of the old trap. No threats were made as a matter of precaution, but one of the number remarked later that it would only be child's play to storm that "paper box" and pull Nagle out for introduction to Judge Lynch. If a riot is started by Judge Porter's oration the storming of the jail would be the first of the plot, and the citizens here are afraid of the result. The Sheriff has drafted the best men he could find into the service of the County, and intends to defend Nagle at all hazards.

SAN FRANCISCO, Aug. 16.—The Supreme Court of the State of California, of which the late David S. Terry was formerly Chief Justice, this morning refused to adjourn out of respect to Terry's memory.

TRIAL OF LAFAYETTE REGULATORS.

They are Charged with Murder, Jail-Breaking and Resisting Sheriff.

By Telegraph to The Freeman.

LAFAYETTE, La., Aug. 16.—Every available seat as well as all the standing room in the Court House was occupied yesterday by persons anxious to witness the closing scenes in the preliminary trial of the Lafayette Regulators, charged with murder, jail-breaking and resisting the Sheriff. The case has been in progress since Monday. Attorney-General Rogers stated that the State had failed to make out a case against Antole Breaux and Ferdinand Broussard, and they were discharged. Three others were admitted to bail and 14 were committed without bail. The decision of the Judge was a surprise to the friends of the Regulators as it was thought they would be allowed bail. The prisoners were much depressed. Their confinement, outside of their personal discomforts from jail life, will be a serious blow to their business. A majority of them are farmers, and their crops without attention will go to ruin.

Decision in Maybrick Case Expected.

By Cable to The Freeman.

LONDON, Aug. 16.—Home Secretary Matthews, Justice Stephen, the Lord Chancellor, and medical experts are to-day holding a conference at the Home Office with a view to arriving at a decision in the Maybrick case. The conference lasted four hours. It is regarded as a certainty that the Home Office is in doubt and it is believed that the result of the deliberations must necessarily be a pardon or a commutation of sentence.

Electric Street Railroad Opened.

By Telegraph to The Freeman.

OTTAWA, Ills., Aug. 16.—The Ottawa Electric Street Railway Company formally opened its lines last night. An average speed of 10 miles per hour was attained. Six miles of track are now down. The road is the first of its kind in the State to run its cars, and its success is unquestioned.

CHIEF MAYES' ANSWER TO COMMISSION

It is a Document of Over 2,000 Words—What the Cherokee Has to Say.

By Telegraph to The Freeman.

TAHLEQUAH, I. T., Aug. 16.—Chief Mayes' long-expected answer has finally been given to the Cherokee Commission. It is a document of over 2,000 words, the burden of which is a discussion of the title to the Outlet. Mayes says he regrets that the Commission's proposition made no allusion to the legal status of the lands in question, and that more than one point in the offer either has no legal ground to support it, or else the Commissioners had deemed it best not to refer to those grounds. He says the term "outlet" is used unadvisedly by the Commissioners, and that all the patent lands of the Cherokees are known by both the Cherokee people and by the United States treaties as the "Cherokee Country." Mayes says he would like to have a proposition from the Commissioners that the people can understand. "The Cherokee Constitution," he says, "declares that the lands of the Cherokees shall remain common property, and that if the Cherokee people should desire to cede a part of their lands an amendment to the Cherokee Constitution would be necessary." The Commissioners' proposition will be submitted to the Council at its session in November next. In conclusion he says the Cherokee people take it for granted that Congress will not legislate against the Cherokees in the interest of citizens who desire to despoil them of their rights.

The reply of the Commissioners to Chief Mayes goes over the ground covered in the original letter, and states the position of the Government more fully.

Eber S. Allen Sentenced.

By Telegraph to The Freeman.

NEW-YORK, Aug. 16.—Eber S. Allen, the defaulting ex-President of the Forty-Second and Grand-Street Railroad Company, who pleaded guilty to two indictments of the over-issue of over $100,000 worth of stock, was sentenced by Judge Gildersleeve to-day to seven years' imprisonment at hard labor on each indictment—the maximum penalty for the offense. Allen turned sickly pale when the sentence was pronounced. He looked around the court room to see whether any of his old friends were present, but his brother was the only one there. Even his wife, whose extravagance is said to have caused his ruin, was absent. The old man was led back to the pen wearing a very dejected look.

Fraudulent Land and Water Rights.

By Telegraph to The Freeman.

SHOSHONE, Idaho, Aug. 16.—The agents looking up fraudulent land and water right entries are making important discoveries. The Upper Blackfoot River has been found to have fine natural meadows, covered by desert entries. On one tract of 11,000 acres, claimed by prominent Utah Mormons, were found 10 mowing machines cutting thousands of tons of hay. The locality is so far away from travel and settlements that it is a good midway place for stock run out of Utah to evade the vigilant Church Receiver. Large herds are reported in that vicinity.

Three-Masted Schooner Sunk.

By Telegraph to The Freeman.

WATERTOWN, N. Y., Aug. 16.—The three-masted schooner A. Vickery, with 21,000 bushels of corn as cargo, bound for Prescott, Ont., from Chicago, struck a shoal near the Rock Island light-house opposite Thousand Island Park last night and sank. The crew escaped in the boats. The schooner was valued at $12,000. The grain was consigned to A. Wiser, of Prescott. The vessel was partially insured; the grain entirely. The Captain has abandoned the schooner, leaving the insurance companies to decide as to whether to raise it or not.

Tascott Again "Discovered."

By Telegraph to The Freeman.

HERSEY, Mich., Aug. 16.—G. G. Schlegel, who claims to have discovered that Tascott is serving a term for horse stealing in the Michigan State Prison, maintains that when he went to Chicago to consult with the friends of Snell, the murdered millionaire, he discovered indisputable evidence that there is a ring in Chicago who are interested in keeping the matter quiet. He declares he has new proof that the man in Jackson is Tascott. He has placed the matter in the hands of moneyed men and will go to the bottom of it.

What Caused General West's Death.

By Telegraph to The Freeman.

ASBURY PARK, N. J., Aug 16.—The death of General Theodore S. West was caused by Bright's disease. The physicians have given a certificate of death to that effect. They say the assault of Treasury Clerk Ruffin had nothing to do with the General's death.

Woolen Yarn Spinners Fail.

The Tanner and Noble Difficulty.

By Telegraph to The Freeman.

WASHINGTON, Aug. 16.—The attention of Pension Commissioner Tanner was to-day called to a published interview in Chicago with Assistant Secretary Bussey, in which he is represented as speaking of Secretary Noble's relations with the Commissioner. Mr. Tanner said: "Assuming that General Bussey was reported correctly, I object most decidedly to his creating the impression that there are any personal differences between Secretary Noble and myself. Mr. Noble is one of the most loveable of men, a man of broad views, and while there may be some official differences between us these differences are not of a personal character. Any statement tending to create any other impression is untrue."

General Theatrical Notes.

The production of Ibsen's play, "The Pillars of Society," at the Opera Comique, London, will afford fresh material for the controversy which is raging among English critics, and increase the notoriety which is so profitable to a dramatic author and his manager.

F. W. Broughton's piece, "The Beggar," produced the other night at the Strand Theatre, London, is founded upon an ingenious and tolerably original idea, but suffers through want of constructive skill.

Ten Men Lost Their Lives, Two of Them in Trying to Save Others.

By Telegraph to The Freeman.

SAN FRANCISCO, Aug. 16.—The steamer Alejandro has arrived from Guaymas, Mexico, with news that early in July fire broke out in the 1,500-foot level of the Triumfo mine near that City, and 10 men lost their lives. Eight Mexican miners were in the mine and two unknown Americans, formerly of San Francisco, volunteered to go to their rescue. The shaft was full of smoke and gas, and when the bucket was hauled to the top the Americans were dead. The fire lasted several days and finally burned itself out.

PRESIDENT ARRIVES IN WASHINGTON.

He is Looking Fresh and Healthy and Has Enjoyed His Outing.

By Telegraph to The Freeman.

NEW-YORK, Aug. 16.—At 6:30 o'clock this morning the steamer Pilgrim, of the Fall River Line, reached its dock at the foot of Murray street. Among its passengers was President Harrison. A large crowd assembled when it became known that the President was on board. The President was up early, and breakfasted with J. Choate, President of the Old Colony Company. President Harrison looked fresh and healthy, and said he had enjoyed his vacation very much. He was in a great hurry to go to Washington, and at once took passage on the Annex boat for Jersey City. The President left for Washington on the 8:15 limited express over the Pennsylvania Road. He occupied President Roberts' private car.

WASHINGTON, Aug. 16—The President arrived at the White House at 2:08 this afternoon.

WAS HIRED TO POISON FIVE FARMERS.

Affidavit Made and Filed by Charles Lyttle, of Winamac, Indiana.

By Telegraph to The Freeman.

WINAMAC, Ind., Aug. 16.—Yesterday Charles Lyttle filed an affidavit charging John Sutton with hiring him to put strychnine in whiskey and give it to five leading farmers in this vicinity and then to burn their barns and the Odd Fellows building at Stave City. Lyttle was to receive $5 for his work. Lyttle had the strychnine in his possession. Sutton is one of the wealthiest farmers here, owning 1,000 acres of land. A quarrel with his neighbors, it is alleged, is Sutton's reason for forming the conspiracy.

The amount of bail now necessary for his release is $102,500. It is said Collom's friends will meet this bail.

NOTES ON NEWS OF THE DAY.

THE Democrats of the third Louisiana district have nominated a thorough protectionist to succeed the dead Congressman Gay. His name is Andrew Price, his age is 35, and he is a son-in-law of Gay and very rich.

THE Virginia Democratic state convention at Richmond yesterday reaffirmed its adherence to the national platform and established policies of the party, and then called for the abolition of the internal revenue tax on tobacco and fruit brandies. This is swallowing Democracy with a mental reservation.

OVER twenty persons killed by lightning and a million dollars worth of crops, animals and railroads destroyed, is the record of the last storm in that part of the Missouri valley bordering on Nebraska, Kansas and Missouri. This phenomenal season is evidently bound to maintain its singular line of conduct till snow flies.

THE Grand Army men have won a partial victory in their fight for a cent a mile rate to the national encampment at Milwaukee. The Louisville, New Albany and Chicago company yielded yesterday and was joined by the Kankakee. The Panhandle is expected to be the next to succumb, and then the break will extend to all the lines.

IT is now claimed that Mrs. Maybrick is the victim of the perjury of Mrs. Yopp, the principal witness against her. This woman was accused of perjury and conspiracy in Montreal several years ago, for the ruin of another woman's character. The condemned woman's friends are now in hopes of saving her life, and Secretary Blaine will be asked to intercede for her.

THE arrest of Justice Field for complicity in the shooting of Terry has a farcical look, but the Justice himself recognizes the propriety of submitting to the forms of law. He will continue to hold court, and another officer will guard him until Nagle's release. The danger to him is hardly lessened by Terry's death, as Terry's widow is handy with the pistol and as desperate as her recent husband.

PHILIP W. MCKINNEY has carried off the Virginia Democratic gubernatorial nomination, quite unexpectedly to Editor O'Bierne, Congressman O'Ferrall and the venerable Venable. McKinney is a "hustler" in politics and has put in his work chiefly in the "Black Belt," where the negroes remember him as a serious impediment in their path to the ballot box. A Democratic nomination in Virginia is not equivalent to an election this year.

PRESIDENT NORVIN GREEN of the Western Union Telegraph having abandoned letter writing, he and Postmaster General Wanamaker have settled down to an amicable conference in regard to government rates. As the mill per word rate has never been officially promulgated it has not gone into effect, and the price for government business awaits the adjustment, which is expected to be accomplished soon. This matter has brought upon the Postmaster General a great deal of needless and undeserved abuse from some of the loudest opponents of "monopoly," "trusts" and "plutocracy."

THE Duke of Fife declines the government help proffered for the support of his wife, the daughter of the Prince of Wales. He says he is able to support her in becoming style himself, and his income of a half million a year justifies this assumption. English taxpayers will regret that he did not furnish this information to Parliament before the extra allowance of $36,000 a year was voted to the Prince for his daughter. "Wales" will now pocket the cash himself. The Duke's refusal to accept the money under the circumstances is a good deal like Gov. Hill's vetoes of Legislative appropriations after the tax rate had been adopted.

> Sheriff Flack is open to the severest reprobation because of his domestic misconduct; but he will not be led by pecuniary considerations to act as hangman next week Friday. He has hired Joe Atkinson, the professional hangman, to do the job of hanging the five murderers. *New-York Sun.*

The *Sun* never misses the opportunity to give the late Grover Cleveland a whack. And yet if Mr. Flack wishes to be President he should fulfill as nearly as possible all the conditions which led Mr Cleveland up to that high eminence. He has been Sheriff of his county; he has run a sort of parallel to Mr. Cleveland, Sheriff, in his domestic affairs. Now let him hang at least two of the murderers with his own hand. Then, in spite of Tammany's offended moral sense, he may be President.

THE ocean race between the new Atlantic steamships New York and Teutonic has been completed. The former reached Sandy Hook at 11:58 o'clock Tuesday night and the latter 20 minutes later. The time of the New York from Queenstown was 6 days, 14 hours and 20 minutes, and of the Teutonic 6 days, 14 hours and 45 minutes. The "maiden" or first record of a new ship was 6 days, 15 hours and 41 minutes, made by the America in 1884. The record of the new City of Paris is 6 days, 18 hours and 43 minutes. For seventeen hours on the voyage both the New York and the Teutonic were obliged to "slow down" on account of the fogs.

THE Democrats are sending up a great "loss laff" all over the state at the Republican proposition to nominate Charles F. Hauselt for Secretary of State on a high license platform. The thing that amuses the Democrats is the evident supposition that such a nomination would draw German votes away from the Democratic party as long as our "Whisky Governor" leads it. This is assuming that there are no Germans in the state who have a deeper interest in tax reduction than they have in the liquor traffic. We do not believe that all of our German fellow citizens or any considerable portion of them lean that way. They are sober men and hold a foremost rank among tax-payers. They are willing that the liquor trade should pay its fair proportion of the tax burdens. Mr. Hauselt is a representative German-American, an Emigration Commissioner, President of the German Society, and an honest and capable man. His nomination would be followed in about forty days by his election.

BROWN-SEQUARD ELIXIR.

Two Victims Succumbed To-Day—The Facts.

"REGULATORS" AT THE BAR,

Charged with Murder, Jail-Breaking and Other Crimes.

THE TERRY FUNERAL.

What Judge Porter May Do—A Row Expected.

CASE OF MRS. MAYBRICK.

VICTIMS OF BROWN-SEQUARD ELIXIR.

Two Men Die From the Effects—Another Man Who Sufferes Intense Pain.

By Telegraph to The Freeman.

CINCINNATI, Aug. 16.—On Saturday Dr. George K. Taylor, one of the best known physicians here, invited Charles S. Steele, who was almost helpless from paralysis, to enter his office and the doctor injected a quantity of the Brown-Sequard elixir in each of his hips without Steele knowing what it was. The man suffered intense agony, but was told he would soon get well. The agony was so great that on Monday he called on Dr. Taylor, who told him the more pain he had the more complete would be his final recovery. Yesterday Steele sent for Dr. Watson, who found the inside of Steele's thighs terribly inflamed, swollen and in a mottled condition, as if gangrene had set in, though it may prove only blood poisoning. Steele has a high fever and is out of his right mind. He has a large family which he supported by taking orders for coal. His friends have retained a lawyer to sue Dr. Taylor for heavy damages.

SHAMOKIN, Pa., Aug. 16.—George Robertson, of Mount Carmel, has died from the effects of an injection of the Brown-Sequard elixir made in his breast. He suffered from inflamation of the bowels. The new remedy was administered by a competent physician, but its first effect was to make the patient almost delirious from pain. He died two hours after the operation.

TROY, Ohio, Aug. 16.—The only experiment made with the Brown-Sequard Elixir in this town has proved fatal. Dr. Zerron used it yesterday upon William Liedel, a sufferer from rheumatism, and the latter died this morning.

LIMA, Ohio, Aug. 16.—Dr. A. Miesse prepared some of the Brown-Sequard elixir yesterday, and to remove all impurities passed it through filtering paper and began his microscopical examination and found it pure from any animal life. His examinations were repeated every 15 minutes, and at 45 minutes from the time the elixir dropped from the filter he discovered in the cells germs of bacteria in small numbers [micezmes]; in one hour and 15 minutes many of them and bioplasm; in one hour and a-half a perfect mass of living animals. The Doctor does not wish to be understood as declaring that the elixir is not a useful medicine, but wishes to make a puplic test, so that other physicians may be on their guard.

ROW EXPECTED AT TERRY FUNERAL.

Judge Porter Proposes to Deliver Funeral Oration and Denounce Field.

By Telegraph to The Freeman.

NEW-YORK, Aug. 16.—A special from Stockton, Cal., says: There is every prospect of a row at the Terry funeral this afternoon and violence afterward. One of Terry's friends, Judge Porter, of Arizona, proposes to deliver the funeral oration. He says he will go for Field and denounce Terry's shooting as foul murder. If he does some of the leading citizens declare they will stop him, if they have to use force. Feeling runs very high in the town. Last night groups of men discussed the case for and against the Terrys. The ranchers and farmers from the interior came into town and mingled with Stockton people. Discussion on the street corners became loud and boisterous. Here and there an old resident would say a bitter word against Justice Field. In many instances the killing of Terry was pronounced cold-blooded murder. In consequence of talk upon the streets some alarm is felt at the County jail, where Nagle is confined. No one is allowed to see the prisoner. Six officers are on duty at the jail. The jail is an old two-story brick structure, intended as a make-shift until the new Jail and Court House reach completion. During the night a small number of the Terry followers, all rather desperate in character, gathered near the Jail and made a careful inspection of the old trap. No threats were made as a matter of precaution, but one of the number remarked later that it would only be child's play to storm that "paper box" and pull Nagle out for introduction to Judge Lynch. If a riot is started by Judge Porter's oration the storming of the jail would be the first of the plot, and the citizens here are afraid of the result. The Sheriff has drafted the best men he could find into the service of the County, and intends to defend Nagle at all hazards.

SAN FRANCISCO, Aug. 16.—The Supreme Court of the State of California, of which the late David S. Terry was formerly Chief Justice, this morning refused to adjourn out of respect to Terry's memory.

TRIAL OF LAFAYETTE REGULATORS.

They are Charged with Murder, Jail-Breaking and Resisting Sheriff.

By Telegraph to The Freeman.

LAFAYETTE, La., Aug. 16.—Every available seat as well as all the standing room in the Court House was occupied yesterday by persons anxious to witness the closing scenes in the preliminary trial of the Lafayette Regulators, charged with murder, jail-breaking and resisting the Sheriff. The case has been in progress since Monday. Attorney-General Rogers stated that the State had failed to make out a case against Antole Breaux and Ferdinand Broussard, and they were discharged. Three others were admitted to bail and 14 were committed without bail. The decision of the Judge was a surprise to the friends of the Regulators as it was thought they would be allowed bail. The prisoners were much depressed. Their confinement, outside of their personal discomforts from jail life, will be a serious blow to their business. A majority of them are farmers, and their crops without attention will go to ruin.

Decision in Maybrick Case Expected.

By Cable to The Freeman.

LONDON, Aug. 16.—Home Secretary Matthews, Justice Stephen, the Lord Chancellor, and medical experts are to-day holding a conference at the Home Office with a view to arriving at a decision in the Maybrick case. The conference lasted four hours. It is regarded as a certainty that the Home Office is in doubt and it is believed that the result of the deliberations must necessarily be a pardon or a commutation of sentence.

Electric Street Railroad Opened.

By Telegraph to The Freeman.

OTTAWA, Ills., Aug. 16.—The Ottawa Electric Street Railway Company formally opened its lines last night. An average speed of 10 miles per hour was attained. Six miles of track are now down. The road is the first of its kind in the State to run its cars, and its success is unquestioned.

CHIEF MAYES' ANSWER TO COMMISSION

It is a Document of Over 2,000 Words—What the Cherokee Has to Say.

By Telegraph to The Freeman.

TAHLEQUAH, I. T., Aug. 16.—Chief Mayes' long-expected answer has finally been given to the Cherokee Commission. It is a document of over 2,000 words, the burden of which is a discussion of the title to the Outlet. Mayes says he regrets that the Commission's proposition made no allusion to the legal status of the lands in question, and that more than one point in the offer either has no legal ground to support it, or else the Commissioners had deemed it best not to refer to those grounds. He says the term "outlet" is used unadvisedly by the Commissioners, and that all the patent lands of the Cherokees are known by both the Cherokee people and by the United States treaties as the "Cherokee Country." Mayes says he would like to have a proposition from the Commissioners that the people can understand. "The Cherokee Constitution," he says, "declares that the lands of the Cherokees shall remain common property, and that if the Cherokee people should desire to cede a part of their lands an amendment to the Cherokee Constitution would be necessary." The Commissioners' proposition will be submitted to the Council at its session in November next. In conclusion he says the Cherokee people take it for granted that Congress will not legislate against the Cherokees in the interest of citizens who desire to despoil them of their rights.

The reply of the Commissioners to Chief Mayes goes over the ground covered in the original letter, and states the position of the Government more fully.

Eber S. Allen Sentenced.

By Telegraph to The Freeman.

NEW-YORK, Aug. 16.—Eber S. Allen, the defaulting ex-President of the Forty-Second and Grand-Street Railroad Company, who pleaded guilty to two indictments of the over-issue of over $100,000 worth of stock, was sentenced by Judge Gildersleeve to-day to seven years' imprisonment at hard labor on each indictment—the maximum penalty for the offense. Allen turned sickly pale when the sentence was pronounced. He looked around the court room to see whether any of his old friends were present, but his brother was the only one there. Even his wife, whose extravagance is said to have caused his ruin, was absent. The old man was led back to the pen wearing a very dejected look.

Fraudulent Land and Water Rights.

By Telegraph to The Freeman.

SHOSHONE, Idaho, Aug. 16.—The agents looking up fraudulent land and water right entries are making important discoveries. The Upper Blackfoot River has been found to have fine natural meadows, covered by desert entries. On one tract of 11,000 acres, claimed by prominent Utah Mormons, were found 10 mowing machines cutting thousands of tons of hay. The locality is so far away from travel and settlements that it is a good midway place for stock run out of Utah to evade the vigilant Church Receiver. Large herds are reported in that vicinity.

Three-Masted Schooner Sunk.

By Telegraph to The Freeman.

WATERTOWN, N. Y., Aug. 16.—The three-masted schooner A. Vickery, with 21,000 bushels of corn as cargo, bound for Prescott, Ont., from Chicago, struck a shoal near the Rock Island light-house opposite Thousand Island Park last night and sank. The crew escaped in the boats. The schooner was valued at $12,000. The grain was consigned to A. Wiser, of Prescott. The vessel was partially insured; the grain entirely. The Captain has abandoned the schooner, leaving the insurance companies to decide as to whether to raise it or not.

Tascott Again "Discovered."

By Telegraph to The Freeman.

HERSEY, Mich., Aug. 16.—G. G. Schlegel, who claims to have discovered that Tascott is serving a term for horse stealing in the Michigan State Prison, maintains that when he went to Chicago to consult with the friends of Snell, the murdered millionaire, he discovered indisputable evidence that there is a ring in Chicago who are interested in keeping the matter quiet. He declares he has new proof that the man in Jackson is Tascott. He has placed the matter in the hands of moneyed men and will go to the bottom of it.

What Caused General West's Death.

By Telegraph to The Freeman.

ASBURY PARK, N. J., Aug 16.—The death of General Theodore S. West was caused by Bright's disease. The physicians have given a certificate of death to that effect. They say the assault of Treasury Clerk Ruffin had nothing to do with the General's death.

Strange Mode of Suicide.

By Telegraph to The Freeman.

PHILADELPHIA, Aug. 16.—Catherine Mulig, aged 25, this forenoon placed a wash-tub under the hydrant, put her head in the tub and turned on the water, holding her head there until she was drowned. The woman had shown signs of insanity.

Woolen Yarn Spinners Fail.

By Telegraph to The Freeman.

PHILADELPHIA, Pa., Aug. 16.—David Crowther & Son, woolen yarn spinners, of Germantown, have failed. The cause of the failure is said to be the assignment of Lewis Brothers & Co., for whom the firm had been working.

Proposals for State Work.

By Telegraph to The Freeman.

ALBANY, N. Y., Aug. 16.—Superintendent of Public Works Shanahan is to-day sending out advertisement for proposals to be opened August 30 for the following pieces of work: For iron bridge over the Erie Canal at Culvert street, Rochester, for which $16,000 is appropriated; for changing machinery of lift bridge over the Erie Canal at Brockport to water power, $2,650 appropriated; for further improving the Harbor of Canandaigua Lake, by the erection of 800 feet of additional pier and breakwater, $31,000 appropriated; for building 3,800 feet of vertical wall on the berm side of the Erie Canal, near the village of Ilion, $15,000 appropriated; for rebuilding portions of canal wall and culvert between Oswego Canal and River, in Oswego, $10,000 appropriated.

The Tanner and Noble Difficulty.

By Telegraph to The Freeman.

WASHINGTON, Aug. 16.—The attention of Pension Commissioner Tanner was to-day called to a published interview in Chicago with Assistant Secretary Bussey, in which he is represented as speaking of Secretary Noble's relations with the Commissioner. Mr. Tanner said: "Assuming that General Bussey was reported correctly, I object most decidedly to his creating the impression that there are any personal differences between Secretary Noble and myself. Mr. Noble is one of the most loveable of men, a man of broad views, and while there may be some official differences between us these differences are not of a personal character. Any statement tending to create any other impression is untrue."

General Theatrical Notes.

The production of Ibsen's play, "The Pillars of Society," at the Opera Comique, London, will afford fresh material for the controversy which is raging among English critics, and increase the notoriety which is so profitable to a dramatic author and his manager.

F. W. Broughton's piece, "The Beggar," produced the other night at the Strand Theatre, London, is founded upon an ingenious and tolerably original idea, but suffers through want of constructive skill.

The shaft was full of smoke and gas, and when the bucket was hauled to the top the Americans were dead. The fire lasted several days and finally burned itself out.

Affidavit Made and Filed by Charles Lyttle, of Winamac, Indiana.

By Telegraph to The Freeman.

WINAMAC, Ind., Aug. 16.—Yesterday Charles Lyttle filed an affidavit charging John Sutton with hiring him to put strychnine in whiskey and give it to five leading farmers in this vicinity and then to burn their barns and the Odd Fellows building at Stave City. Lyttle was to receive $5 for his work. Lyttle had the strychnine in his possession. Sutton is one of the wealthiest farmers here, owning 1,000 acres of land. A quarrel with his neighbors, it is alleged, is Sutton's reason for forming the conspiracy.

NOTES ON NEWS OF THE DAY.

THE Democrats of the third Louisiana district have nominated a thorough protectionist to succeed the dead Congressman Gay. His name is Andrew Price, his age is 35, and he is a son-in-law of Gay and very rich.

THE Virginia Democratic state convention at Richmond yesterday reaffirmed its adherence to the national platform and established policies of the party, and then called for the abolition of the internal revenue tax on tobacco and fruit brandies. This is swallowing Democracy with a mental reservation.

OVER twenty persons killed by lightning and a million dollars worth of crops, animals and railroads destroyed, is the record of the last storm in that part of the Missouri valley bordering on Nebraska, Kansas and Missouri. This phenomenal season is evidently bound to maintain its singular line of conduct till snow flies.

THE Grand Army men have won a partial victory in their fight for a cent a mile rate to the national encampment at Milwaukee. The Louisville, New Albany and Chicago company yielded yesterday and was joined by the Kankakee. The Panhandle is expected to be the next to succumb, and then the break will extend to all the lines.

IT is now claimed that Mrs. Maybrick is the victim of the perjury of Mrs. Yopp, the principal witness against her. This woman was accused of perjury and conspiracy in Montreal several years ago, for the ruin of another woman's character. The condemned woman's friends are now in hopes of saving her life, and Secretary Blaine will be asked to intercede for her.

THE arrest of Justice Field for complicity in the shooting of Terry has a farcical look, but the Justice himself recognizes the propriety of submitting to the forms of law. He will continue to hold court, and another officer will guard him until Nagle's release. The danger to him is hardly lessened by Terry's death, as Terry's widow is handy with the pistol and as desperate as her recent husband.

PHILIP W. MCKINNEY has carried off the Virginia Democratic gubernatorial nomination, quite unexpectedly to Editor O'Bierne, Congressman O'Ferrall and the venerable Venable. McKinney is a "hustler" in politics and has put in his work chiefly in the "Black Belt," where the negroes remember him as a serious impediment in their path to the ballot box. A Democratic nomination in Virginia is not equivalent to an election this year.

PRESIDENT NORVIN GREEN of the Western Union Telegraph having abandoned letter writing, he and Postmaster General Wanamaker have settled down to an amicable conference in regard to government rates. As the mill per word rate has never been officially promulgated it has not gone into effect, and the price for government business awaits the adjustment, which is expected to be accomplished soon. This matter has brought upon the Postmaster General a great deal of needless and undeserved abuse from some of the loudest opponents of "monopoly," "trusts" and "plutocracy."

THE Duke of Fife declines the government help proffered for the support of his wife, the daughter of the Prince of Wales. He says he is able to support her in becoming style himself, and his income of a half million a year justifies this assumption. English taxpayers will regret that he did not furnish this information to Parliament before the extra allowance of $36,000 a year was voted to the Prince for his daughter. "Wales" will now pocket the cash himself. The Duke's refusal to accept the money under the circumstances is a good deal like Gov. Hill's vetoes of Legislative appropriations after the tax rate had been adopted.

> Sheriff Flack is open to the severest reprobation because of his domestic misconduct; but he will not be led by pecuniary considerations to act as hangman next week Friday. He has hired Joe Atkinson, the professional hangman, to do the job of hanging the five murderers. *New-York Sun.*

The *Sun* never misses the opportunity to give the late Grover Cleveland a whack. And yet if Mr. Flack wishes to be President he should fulfill as nearly as possible all the conditions which led Mr Cleveland up to that high eminence. He has been Sheriff of his county; he has run a sort of parallel to Mr. Cleveland, Sheriff, in his domestic affairs. Now let him hang at least two of the murderers with his own hand. Then, in spite of Tammany's offended moral sense, he may be President.

THE ocean race between the new Atlantic steamships New York and Teutonic has been completed. The former reached Sandy Hook at 11:58 o'clock Tuesday night and the latter 20 minutes later. The time of the New York from Queenstown was 6 days, 14 hours and 20 minutes, and of the Teutonic 6 days, 14 hours and 45 minutes. The "maiden" or first record of a new ship was 6 days, 15 hours and 41 minutes, made by the America in 1884. The record of the new City of Paris is 6 days, 18 hours and 43 minutes. For seventeen hours on the voyage both the New York and the Teutonic were obliged to "slow down" on account of the fogs.

THE Democrats are sending up a great "hoss laff" all over the state at the Republican proposition to nominate Charles F. Hauselt for Secretary of State on a high license platform. The thing that amuses the Democrats is the evident supposition that such a nomination would draw German votes away from the Democratic party as long as our "Whisky Governor" leads it. This is assuming that there are no Germans in the state who have a deeper interest in tax reduction than they have in the liquor traffic. We do not believe that all of our German fellow citizens or any considerable portion of them lean that way. They are sober men and hold a foremost rank among tax-payers. They are willing that the liquor trade should pay its fair proportion of the tax burdens. Mr. Hauselt is a representative German-American, an Emigration Commissioner, President of the German Society, and an honest and capable man. His nomination would be followed in about forty days by his election.

BROWN-SEQUARD ELIXIR.

Two Victims Succumbed To-Day—The Facts.

"REGULATORS" AT THE BAR,

Charged with Murder, Jail-Breaking and Other Crimes.

THE TERRY FUNERAL.

What Judge Porter May Do—A Row Expected.

CASE OF MRS. MAYBRICK.

VICTIMS OF BROWN-SEQUARD ELIXIR.

Two Men Die From the Effects—Another Man Who Suffers Intense Pain.

By Telegraph to The Freeman.

CINCINNATI, Aug. 16.—On Saturday Dr. George K. Taylor, one of the best known physicians here, invited Charles S. Steele, who was almost helpless from paralysis, to enter his office and the doctor injected a quantity of the Brown-Sequard elixir in each of his hips without Steele knowing what it was. The man suffered intense agony, but was told he would soon get well. The agony was so great that on Monday he called on Dr. Taylor, who told him the more pain he had the more complete would be his final recovery. Yesterday Steele sent for Dr. Watson, who found the inside of Steele's thighs terribly inflamed, swollen and in a mottled condition, as if gangrene had set in, though it may prove only blood poisoning. Steele has a high fever and is out of his right mind. He has a large family which he supported by taking orders for coal. His friends have retained a lawyer to sue Dr. Taylor for heavy damages.

SHAMOKIN, Pa., Aug. 16.—George Robertson, of Mount Carmel, has died from the effects of an injection of the Brown-Sequard elixir made in his breast. He suffered from inflamation of the bowels. The new remedy was administered by a competent physician, but its first effect was to make the patient almost delirious from pain. He died two hours after the operation.

TROY, Ohio, Aug. 16.—The only experiment made with the Brown-Sequard Elixir in this town has proved fatal. Dr. Zerron used it yesterday upon William Liedel, a sufferer from rheumatism, and the latter died this morning.

LIMA, Ohio, Aug. 16.—Dr. A. Miesse prepared some of the Brown-Sequard elixir yesterday, and to remove all impurities passed it through filtering paper and began his microscopical examination and found it pure from any animal life. His examinations were repeated every 15 minutes, and at 45 minutes from the time the elixir dropped from the filter he discovered in the cells germs of bacteria in small numbers [micezmes]; in one hour and 15 minutes many of them and bioplasm; in one hour and a-half a perfect mass of living animals. The Doctor does not wish to be understood as declaing that the elixir is not a useful medicine, but wishes to make a pupiic test, so that other physicians may be on their guard.

ROW EXPECTED AT TERRY FUNERAL.

Judge Porter Proposes to Deliver Funeral Oration and Denounce Field.

By Telegraph to The Freeman.

NEW-YORK, Aug. 16.—A special from Stockton, Cal., says: There is every prospect of a row at the Terry funeral this afternoon and violence afterward. One of Terry's friends, Judge Porter, of Arizona, proposes to deliver the funeral oration. He says he will go for Field and denounce Terry's shooting as foul murder. If he does some of the leading citizens declare they will stop him, if they have to use force. Feeling runs very high in the town. Last night groups of men discussed the case for and against the Terrys. The ranchers and farmers from the interior came into town and mingled with Stockton people. Discussion on the street corners became loud and boisterous. Here and there an old resident would say a bitter word against Justice Field. In many instances the killing of Terry was pronounced cold-blooded murder. In consequence of talk upon the streets some alarm is felt at the County jail, where Nagle is confined. No one is allowed to see the prisoner. Six officers are on duty at the jail. The jail is an old two-story brick structure, intended as a make-shift until the new Jail and Court House reach completion. During the night a small number of the Terry followers, all rather desperate in character, gathered near the Jail and made a careful inspection of the old trap. No threats were made as a matter of precaution, but one of the number remarked later that it would only be child's play to storm that "paper box" and pull Nagle out for introduction to Judge Lynch. If a riot is started by Judge Porter's oration the storming of the jail would be the first of the plot, and the citizens here are afraid of the result. The Sheriff has drafted the best men he could find into the service of the County, and intends to defend Nagle at all hazards.

SAN FRANCISCO, Aug. 16.—The Supreme Court of the State of California, of which the late David S. Terry was formerly Chief Justice, this morning refused to adjourn out of respect to Terry's memory.

TRIAL OF LAFAYETTE REGULATORS.

They are Charged with Murder, Jail-Breaking and Resisting Sheriff.

By Telegraph to The Freeman.

LAFAYETTE, La., Aug. 16.—Every available seat as well as all the standing room in the Court House was occupied yesterday by persons anxious to witness the closing scenes in the preliminary trial of the Lafayette Regulators, charged with murder, jail-breaking and resisting the Sheriff. The case has been in progress since Monday. Attorney-General Rogers stated that the State had failed to make out a case against Antole Breaux and Ferdinand Broussard, and they were discharged. Three others were admitted to bail and 14 were committed without bail. The decision of the Judge was a surprise to the friends of the Regulators as it was thought they would be allowed bail. The prisoners were much depressed. Their confinement, outside of their personal discomforts from jail life, will be a serious blow to their business. A majority of them are farmers, and their crops without attention will go to ruin.

Decision in Maybrick Case Expected.

By Cable to The Freeman.

LONDON, Aug. 16.—Home Secretary Matthews, Justice Stephen, the Lord Chancellor, and medical experts are to-day holding a conference at the Home Office with a view to arriving at a decision in the Maybrick case. The conference lasted four hours. It is regarded as a certainty that the Home Office is in doubt and it is believed that the result of the deliberations must necessarily be a pardon or a commutation of sentence.

Electric Street Railroad Opened.

By Telegraph to The Freeman.

OTTAWA, Ills., Aug. 16.—The Ottawa Electric Street Railway Company formally opened its lines last night. An average speed of 10 miles per hour was attained. Six miles of track are now down. The road is the first of its kind in the State to run its cars, and its success is unquestioned.

CHIEF MAYES' ANSWER TO COMMISSION

It is a Document of Over 2,000 Words—What the Cherokee Has to Say.

By Telegraph to The Freeman.

TAHLEQUAH, I. T., Aug. 16.—Chief Mayes' long-expected answer has finally been given to the Cherokee Commission. It is a document of over 2,000 words, the burden of which is a discussion of the title to the Outlet. Mayes says he regrets that the Commission's proposition made no allusion to the legal status of the lands in question, and that more than one point in the offer either has no legal ground to support it, or else the Commissioners had deemed it best not to refer to those grounds. He says the term "outlet" is used unadvisedly by the Commissioners, and that all the patent lands of the Cherokees are known by both the Cherokee people and by the United States treaties as the "Cherokee Country." Mayes says he would like to have a proposition from the Commissioners that the people can understand. "The Cherokee Constitution," he says, "declares that the lands of the Cherokees shall remain common property, and that if the Cherokee people should desire to cede a part of their lands an amendment to the Cherokee Constitution would be necessary." The Commissioners' proposition will be submitted to the Council at its session in November next. In conclusion he says the Cherokee people take it for granted that Congress will not legislate against the Cherokees in the interest of citizens who desire to despoil them of their rights.

The reply of the Commissioners to Chief Mayes goes over the ground covered in the original letter, and states the position of the Government more fully.

Eber S. Allen Sentenced.

By Telegraph to The Freeman.

NEW-YORK, Aug. 16.—Eber S. Allen, the defaulting ex-President of the Forty-Second and Grand-Street Railroad Company, who pleaded guilty to two indictments of the over-issue of over $100,000 worth of stock, was sentenced by Judge Gildersleeve to-day to seven years' imprisonment at hard labor on each indictment—the maximum penalty for the offense. Allen turned sickly pale when the sentence was pronounced. He looked around the court room to see whether any of his old friends were present, but his brother was the only one there. Even his wife, whose extravagance is said to have caused his ruin, was absent. The old man was led back to the pen wearing a very dejected look.

Fraudulent Land and Water Rights.

By Telegraph to The Freeman.

SHOSHONE, Idaho, Aug. 16.—The agents looking up fraudulent land and water right entries are making important discoveries. The Upper Blackfoot River has been found to have fine natural meadows, covered by desert entries. On one tract of 11,000 acres, claimed by prominent Utah Mormons, were found 10 mowing machines cutting thousands of tons of hay. The locality is so far away from travel and settlements that it is a good midway place for stock run out of Utah to evade the vigilant Church Receiver. Large herds are reported in that vicinity.

Three-Masted Schooner Sunk.

By Telegraph to The Freeman.

WATERTOWN, N. Y., Aug. 16.—The three-masted schooner A. Vickery, with 21,000 bushels of corn as cargo, bound for Prescott, Ont., from Chicago, struck a shoal near the Rock Island light-house opposite Thousand Island Park last night and sank. The crew escaped in the boats. The schooner was valued at $12,000. The grain was consigned to A. Wiser, of Prescott. The vessel was partially insured; the grain entirely. The Captain has abandoned the schooner, leaving the insurance companies to decide as to whether to raise it or not.

He declares he has new proof that the man in Jackson is Tascott. He has placed the matter in the hands of moneyed men and will go to the bottom of it.

The Tanner and Noble Difficulty.

By Telegraph to The Freeman.

WASHINGTON, Aug. 16.—The attention of Pension Commissioner Tanner was to-day called to a published interview in Chicago with Assistant Secretary Bussey, in which he is represented as speaking of Secretary Noble's relations with the Commissioner. Mr. Tanner said: "Assuming that General Bussey was reported correctly, I object most decidedly to his creating the impression that there are any personal differences between Secretary Noble and myself. Mr. Noble is one of the most loveable of men, a man of broad views, and while there may be some official differences between us these differences are not of a personal character. Any statement tending to create any other impression is untrue."

The production of Ibsen's play, "The Pillars of Society," at the Opera Comique, London, will afford fresh material for the controversy which is raging among English critics, and increase the notoriety which is so profitable to a dramatic author and his manager.

F. W. Broughton's piece, "The Beggar," produced the other night at the Strand Theatre, London, is founded upon an ingenious and tolerably original idea, but suffers through want of constructive skill.

THE BLAIR BILL.

The election of a Republican Congress was believed for a time to assure the success of the Blair educational bill. The Republican party is the party of education, and has always been ready to favor any measure that looked to a reduction of the sum of ignorance. The Blair bill has received considerable attention in Congress, and been supported by some of the most intelligent members thereof. Mr. Blair has been very industrious and persistent in pushing it. But there does not yet appear to be a clear course for it. Its friends in the South are withdrawing their support from it as a measure that has ceased to be necessary. The New Orleans *Times-Democrat* says a greater interest has been aroused in the South in education in the last two or three years, as is shown by the large increase in the educational appropriations of Texas, Arkansas, Georgia and Alabama. The advice is given that "if the Southern people will exert themselves they can solve this problem." The Nashville *American* thinks the popularity of the bill is a thing of the past; it does not know a Democrat in the state who would now publicly avow himself in any convention in favor of the bill. The Louisville *Courier-Journal* explains the growth of public sentiment in favor of education and the increasing opposition to the bill as follows:

> Every Southern state has been aroused. Taxes for school purposes are voted freely and applied with care, and with ever increasing intelligence. Already the value of good schools from a material standpoint is apparent, and a generous rivalry has been excited between the various states. Considering all the circumstances, the work done in the past ten years in behalf of education is one of the brightest chapters in the history of free institutions. * * * The history of the next ten years will be more brilliant than any of the past. The chief obstacle has been the cowardly hope that the Federal Government would do this work for us. We realize now, or at least most of us realize, that no greater calamity could have befallen education than the passage of the Blair bill. That measure is now understood in all its scope and meaning. Georgia is awake at last, and by a vote of nineteen to ten indefinitely postpones the resolution indorsing the measure. It has little support in the South. Some men are still unconvinced by the logic of events, but the head of the people is clear, and its heart beats full and strong, and now it sets itself faithfully to the great task of self-education.

We have always insisted that the bill was not a candid and statesmanlike measure, in that it sacrificed honesty and square dealing in a bid for Southern votes. The proposition to throw a great sum of money into the Southern states to be distributed by the authorities there without even the pretense of rendering an account to the federal treasury was a powerful temptation to Southern cupidity, and it is to the credit of the Southern leaders that they have had the firmness and self-respect to resist a bill that would have placed them in the attitude of paupers. They could not, consistently with their self-respect, accept a bounty from the federal government while the states of the North were maintaining their schools without this assistance.

The bill cunningly proposed to distribute the money on the basis of illiteracy, thus giving it the appearance of a national appropriation, while the bulk of it went to the South. This would place New York equally with Texas in the list of pauper states. Mr. Blair would have stood higher in public estimation as a statesman if he had frankly avowed that the purpose of the bill was to cure illiteracy in the South, and limited its distribution to the states that needed it, *on the basis of attendance.* This would at least have brought the children to school. But on the basis of illiteracy it would have encouraged ignorance as the surest way of increasing the share of the state, and as an increase of schools would be contrary to public policy, the money would go to other purposes. The stealing that the bill would provoke would be like that of Tammany in its palmiest days, when Tweed ruled the roost.

If Mr. Blair will frame a bill for the promotion of education in the South, based on actual school attendance, and under the supervision of the authority that pays the money, he will be surprised at the welcome it receives. The country has the money to educate its people, but it wishes the work to be done honestly and in a way to benefit the people for whom it is intended. The Blair bill contains no guarantee of this.

BLOODY DAYS.

> These are bloody days. On Wednesday Marshal Nagle shot and killed Judge David S. Terry at Lathrop, in California. On Tuesday W. S. Glendennin shot and seriously wounded Judge Pierce of the Superior Court of California at San Diego, in that state. On Wednesday Turnkey Herbert of Covington, in Kentucky, shot and fatally wounded W. W. Haines. On the same day a mob at Orange, in Texas, hanged and shot Jim Brooks, an escaped negro convict. On Wednesday also a band of negroes shot and fatally wounded Chief of Police Gaston at Jackson, in Tennessee. Last Sunday Farmer Hicks of Humboldt, in Tennessee, killed Farmer Cash with a club.—*New York Sun, to-day.*

Turning to the *Sun's* telegraphic columns, we learn that on Wednesday night J. W. Ackerman shot his son-in-law J. H. Thorp at Rahway, N. J., inflicting a probably fatal wound; George Clark killed himself at Kinderhook yesterday morning because his sweetheart May Hubbard jilted him; Harry Terlan was murdered by a woman yesterday morning at a dance in Covington, Ky.; Gen. Theodore West of Washington died at Asbury Park, N. J., yesterday from injuries inflicted by Sterling Ruffin in a fight on the 6th of July; Miss Emma Shepherd was fatally shot by her lover, named Miller, at Deckertown, N. J., yesterday morning; Thomas F. Thomas was fatally shot at Roslyn, Wis., Wednesday night by Fred Loshman in a quarrel over $2, and Loshman was lynched yesterday morning; Oscar Wehl, artist, committed suicide by shooting in his room at the foot of West 152d street, New York sometime between Tuesday and yesterday morning; H. G. Stone filled the body of Dr. Hitchcock with bullets at Comanche, Iowa, Wednesday morning; Bill Westmoreland, colored, was hanged yesterday at Jacksonville, Fla., for the murder of his wife. From another paper we learn that Revenue Collector Weller was shot dead by a moonshiner named Brownell near Jacksonville Wednesday night; an Italian laborer was shot dead in a riot at Petersburg, Pa., last night. Perhaps this is enough for one day's gathering of news. A dozen or more murders are recorded, with only one legal hanging and two lynchings. The gallows does not keep pace with the assassin, though Judge Lynch works with twice the celerity of the law.

Hon. Cornelius N. Bliss resigned the chairmanship of the State Committee, which he had filled with great ability and industry for several years, and Gen. John N. Knapp of Auburn was elected to succeed him. The sentiment of the meeting was unanimously in favor of high license as the leading issue of the campaign. Hon. A. T. Clearwater represented the seventeenth district in the committee, as proxy for ex-Congressman Lindsley.

NOT AN OFF YEAR.

Some Things that the Democrats Would Do if They Could.

[From the New York Tribune.]

The State Committee has done wisely in calling the convention for September 25. This will make rather a short campaign, but one which need not be any the less brisk and decisive on that account. The retirement of Cornelius N. Bliss from the post of chairman of the committee was, of course, foreseen. Mr. Bliss has already served much longer than his personal inclinations would have directed, and he has earned the heartiest thanks of the party for his unselfish devotion to its interests. The election of General John N. Knapp as his successor was equally a foregone conclusion. General Knapp will make an efficient and able chairman, and the work of the campaign is thus begun under the best auspices.

There is one notion existing, no doubt, in the minds of many Republicans which we want to dispel—that this is, in an ordinary sense, an "off year." It is well known that the Democrats mean to strain every nerve to carry the Legislature. It is even said now that they are prepared, if necessary, to sacrifice their state ticket in order to accomplish this. They see a great many advantages to be gained. The first step in their programme, in case they carry the Legislature, is to pass a law providing for an immediate enumeration of the inhabitants of the state, to be completed while the Legislature is still in session, and to be swiftly followed by a reapportionment of the legislative districts. In this way, if they should secure the Legislature, they would come near to making sure of the next United States Senator; they would expect to secure a Democratic Constitutional Convention, to revise the fundamental law of the state under the all-wise and all-pure supervision of David B. Hill; and they would expect also to have the execution of the new Congressional apportionment, and with that, perhaps, to win the balance of power in the National House of Representatives.

No, this is not an off year, by any means. There is a great deal for Republicans to work for. The Saratoga Convention will be the largest in the history of the party, consisting of 777 delegates, under the popular method of representation obtaining in the Republican party. Let men of high character and ability be sent as delegates. The work they will have to do is important.

PUBLIC OPINION.

"One by one the stars fade out," and one by one the beloved disciples of Tammany send in a resignation, "trusting that the public will not prejudge their case." The Flack divorce iniquity is the lever that is prying them out. Justice Monell's is the latest departure.—*Albany Journal.*

Nothing future is more certain than that sooner or later, if the racing of ocean passenger steamships be not previously checked by the common sense of the companies or the coercive pressure of public sentiment, it will be stopped by a disaster that will carry heartache into hundreds of homes.—*Hartford Courant.*

The state camp at Peekskill may be a good thing as a military training school, but unless they subject themselves to the strictest discipline there, some of our militiamen seem liable to suffer mentally. The other day a private of a Buffalo regiment drowned himself while out of his head, and Tuesday an officer was found aimlessly wandering on the railway track in his stocking feet.—*Utica Herald.*

Hats off to Governor Lowry! Jake Kilrain follows John L. Sullivan to Mississippi, and indictments are announced as having been found against the referee, trainers, seconds, backers, bottle-holders and other participants in the Richburg fight. At this rate the last prize fight has been held in the United States, and the credit will belong to Mississippi's Chief Executive.—*New York Graphic.*

A Mugwump contemporary is afraid that the "Assistant Postmaster General's official cleaver will injure the party." Clarkson has a big work ahead of him. He has only just begun. Some thirty-five thousand Democratic postmasters have yet to walk the plank. Only a little over one-fourth of them have resigned or been displaced. The Postoffice Department had a hopeless lot of ignoramuses in it when Clarkson began his work. It takes time to weed them out effectually.—*Chicago Inter-Ocean.*

THE BLAIR BILL.

The election of a Republican Congress was believed for a time to assure the success of the Blair educational bill. The Republican party is the party of education, and has always been ready to favor any measure that looked to a reduction of the sum of ignorance. The Blair bill has received considerable attention in Congress, and been supported by some of the most intelligent members thereof. Mr. Blair has been very industrious and persistent in pushing it. But there does not yet appear to be a clear course for it. Its friends in the South are withdrawing their support from it as a measure that has ceased to be necessary. The New Orleans *Times-Democrat* says a greater interest has been aroused in the South in education in the last two or three years, as is shown by the large increase in the educational appropriations of Texas, Arkansas, Georgia and Alabama. The advice is given that "if the Southern people will exert themselves they can solve this problem." The Nashville *American* thinks the popularity of the bill is a thing of the past; it does not know a Democrat in the state who would now publicly avow himself in any convention in favor of the bill. The Louisville *Courier-Journal* explains the growth of public sentiment in favor of education and the increasing opposition to the bill as follows:

> Every Southern state has been aroused. Taxes for school purposes are voted freely and applied with care, and with ever increasing intelligence. Already the value of good schools from a material standpoint is apparent, and a generous rivalry has been excited between the various states. Considering all the circumstances, the work done in the past ten years in behalf of education is one of the brightest chapters in the history of free institutions. * * * The history of the next ten years will be more brilliant than any of the past. The chief obstacle has been the cowardly hope that the Federal Government would do this work for us. We realize now, or at least most of us realize, that no greater calamity could have befallen education than the passage of the Blair bill. That measure is now understood in all its scope and meaning. Georgia is awake at last, and by a vote of nineteen to ten indefinitely postpones the resolution indorsing the measure. It has little support in the South. Some men are still unconvinced by the logic of events, but the head of the people is clear, and its heart beats full and strong, and now it sets itself faithfully to the great task of self-education.

We have always insisted that the bill was not a candid and statesmanlike measure, in that it sacrificed honesty and square dealing in a bid for Southern votes. The proposition to throw a great sum of money into the Southern states to be distributed by the authorities there without even the pretense of rendering an account to the federal treasury was a powerful temptation to Southern cupidity, and it is to the credit of the Southern leaders that they have had the firmness and self-respect to resist a bill that would have placed them in the attitude of paupers. They could not, consistently with their self-respect, accept a bounty from the federal government while the states of the North were maintaining their schools without this assistance.

The bill cunningly proposed to distribute the money on the basis of illiteracy, thus giving it the appearance of a national appropriation, while the bulk of it went to the South. This would place New York equally with Texas in the list of pauper states. Mr. Blair would have stood higher in public estimation as a statesman if he had frankly avowed that the purpose of the bill was to cure illiteracy in the South, and limited its distribution to the states that needed it, *on the basis of attendance*. This would at least have brought the children to school. But on the basis of illiteracy it would have encouraged ignorance as the surest way of increasing the share of the state, and as an increase of schools would be contrary to public policy, the money would go to other purposes. The stealing that the bill would provoke would be like that of Tammany in its palmiest days, when Tweed ruled the roost.

If Mr. Blair will frame a bill for the promotion of education in the South, based on actual school attendance, and under the supervision of the authority that pays the money, he will be surprised at the welcome it receives. The country has the money to educate its people, but it wishes the work to be done honestly and in a way to benefit the people for whom it is intended. The Blair bill contains no guarantee of this.

BLOODY DAYS.

> These are bloody days. On Wednesday Marshal Nagle shot and killed Judge David S. Terry at Lathrop, in California. On Tuesday W. S. Glendennin shot and seriously wounded Judge Pierce of the Superior Court of California at San Diego, in that state. On Wednesday Turnkey Herbert of Covington, in Kentucky, shot and fatally wounded W. W. Haines. On the same day a mob at Orange, in Texas, hanged and shot Jim Brooks, an escaped negro convict. On Wednesday also a band of negroes shot and fatally wounded Chief of Police Gaston at Jackson, in Tennessee. Last Sunday Farmer Hicks of Humboldt, in Tennessee, killed Farmer Cash with a club.—*New York Sun, to-day.*

Turning to the *Sun's* telegraphic columns, we learn that on Wednesday night J. W. Ackerman shot his son-in-law J. H. Thorp at Rahway, N. J., inflicting a probably fatal wound; George Clark killed himself at Kinderhook yesterday morning because his sweetheart May Hubbard jilted him; Harry Terlan was murdered by a woman yesterday morning at a dance in Covington, Ky.; Gen. Theodore West of Washington died at Asbury Park, N. J., yesterday from injuries inflicted by Sterling Ruffin in a fight on the 6th of July; Miss Emma Shepherd was fatally shot by her lover, named Miller, at Deckertown, N. J., yesterday morning; Thomas F. Thomas was fatally shot at Roslyn, Wis., Wednesday night by Fred Loshman in a quarrel over $2, and Loshman was lynched yesterday morning; Oscar Wehl, artist, committed suicide by shooting in his room at the foot of West 152d street, New York sometime between Tuesday and yesterday morning; H. G. Stone filled the body of Dr. Hitchcock with bullets at Comanche, Iowa, Wednesday morning; Bill Westmoreland, colored, was hanged yesterday at Jacksonville, Fla., for the murder of his wife. From another paper we learn that Revenue Collector Weller was shot dead by a moonshiner named Brownell near Jacksonville Wednesday night; an Italian laborer was shot dead in a riot at Petersburg, Pa., last night. Perhaps this is enough for one day's gathering of news. A dozen or more murders are recorded, with only one legal hanging and two lynchings. The gallows does not keep pace with the assassin, though Judge Lynch works with twice the celerity of the law.

REPUBLICAN STATE CONVENTION.

The Republican State Convention has been called to meet at Saratoga on the 25th of September. Syracuse and Buffalo were aspirants for the honor, but Saratoga won easily after the assurance was given that the hotels would be kept open till October 1st. Saratoga has been a favorite place for Republican conventions, six having been held there within the last dozen years. The following is the record with dates:

1878—Sept. 26, Saratoga.
1879—Sept. 3, Saratoga.
1880 (Electors)—Feb. 25, Utica.
1880—Chief Justice nominated by State Committee, Aug. 24, New York.
1881—October 5th, New York.
1882—Sept. 20, Saratoga.
1883—Sept. 19, Richfield Springs.
1884—April 23, Utica.
1885—Sept. 22, Saratoga.
1886—Chief Justice nominated by State Committee, Sept. 29, New-York.
1887—Sept. 14, Saratoga.
1888 (Electors)—May 16, Buffalo.
1888—Aug. 28, Saratoga.

Hon. Cornelius N. Bliss resigned the chairmanship of the State Committee, which he had filled with great ability and industry for several years, and Gen. John N. Knapp of Auburn was elected to succeed him. The sentiment of the meeting was unanimously in favor of high license as the leading issue of the campaign. Hon. A. T. Clearwater represented the seventeenth district in the committee, as proxy for ex-Congressman Lindsley.

NOT AN OFF YEAR.

Some Things that the Democrats Would Do if They Could.

[From the New York Tribune.]

The State Committee has done wisely in calling the convention for September 25. This will make rather a short campaign, but one which need not be any the less brisk and decisive on that account. The retirement of Cornelius N. Bliss from the post of chairman of the committee was, of course, foreseen. Mr. Bliss has already served much longer than his personal inclinations would have directed, and he has earned the heartiest thanks of the party for his unselfish devotion to its interests. The election of General John N. Knapp as his successor was equally a foregone conclusion. General Knapp will make an efficient and able chairman, and the work of the campaign is thus begun under the best auspices.

There is one notion existing, no doubt, in the minds of many Republicans which we want to dispel—that this is, in an ordinary sense, an "off year." It is well known that the Democrats mean to strain every nerve to carry the Legislature. It is even said now that they are prepared, if necessary, to sacrifice their state ticket in order to accomplish this. They see a great many advantages to be gained. The first step in their programme, in case they carry the Legislature, is to pass a law providing for an immediate enumeration of the inhabitants of the state, to be completed while the Legislature is still in session, and to be swiftly followed by a reapportionment of the legislative districts. In this way, if they should secure the Legislature, they would come near to making sure of the next United States Senator; they would expect to secure a Democratic Constitutional Convention, to revise the fundamental law of the state under the all-wise and all-pure supervision of David B. Hill; and they would expect also to have the execution of the new Congressional apportionment, and with that, perhaps, to win the balance of power in the National House of Representatives.

No, this is not an off year, by any means. There is a great deal for Republicans to work for. The Saratoga Convention will be the largest in the history of the party, consisting of 777 delegates, under the popular method of representation obtaining in the Republican party. Let men of high character and ability be sent as delegates. The work they will have to do is important.

PUBLIC OPINION.

"One by one the stars fade out," and one by one the beloved disciples of Tammany send in a resignation, "trusting that the public will not prejudge their case." The Flack divorce iniquity is the lever that is prying them out. Justice Monell's is the latest departure.—*Albany Journal.*

Nothing future is more certain than that sooner or later, if the racing of ocean passenger steamships be not previously checked by the common sense of the companies or the coercive pressure of public sentiment, it will be stopped by a disaster that will carry heartache into hundreds of homes.—*Hartford Courant.*

The state camp at Peekskill may be a good thing as a military training school, but unless they subject themselves to the strictest discipline there, some of our militiamen seem liable to suffer mentally. The other day a private of a Buffalo regiment drowned himself while out of his head, and Tuesday an officer was found aimlessly wandering on the railway track in his stocking feet.—*Utica Herald.*

Hats off to Governor Lowry! Jake Kilrain follows John L. Sullivan to Mississippi, and indictments are announced as having been found against the referee, trainers, seconds, backers, bottle-holders and other participants in the Richburg fight. At this rate the last prize fight has been held in the United States, and the credit will belong to Mississippi's Chief Executive.—*New York Graphic.*

A Mugwump contemporary is afraid that the "Assistant Postmaster General's official cleaver will injure the party." Clarkson has a big work ahead of him. He has only just begun. Some thirty-five thousand Democratic postmasters have yet to walk the plank. Only a little over one-fourth of them have resigned or been displaced. The Postoffice Department had a hopeless lot of ignoramuses in it when Clarkson began his work. It takes time to weed them out effectually.—*Chicago Inter-Ocean.*

THE BLAIR BILL.

The election of a Republican Congress was believed for a time to assure the success of the Blair educational bill. The Republican party is the party of education, and has always been ready to favor any measure that looked to a reduction of the sum of ignorance. The Blair bill has received considerable attention in Congress, and been supported by some of the most intelligent members thereof. Mr. Blair has been very industrious and persistent in pushing it. But there does not yet appear to be a clear course for it. Its friends in the South are withdrawing their support from it as a measure that has ceased to be necessary. The New Orleans *Times-Democrat* says a greater interest has been aroused in the South in education in the last two or three years, as is shown by the large increase in the educational appropriations of Texas, Arkansas, Georgia and Alabama. The advice is given that "if the Southern people will exert themselves they can solve this problem." The Nashville *American* thinks the popularity of the bill is a thing of the past; it does not know a Democrat in the state who would now publicly avow himself in any convention in favor of the bill. The Louisville *Courier-Journal* explains the growth of public sentiment in favor of education and the increasing opposition to the bill as follows:

> Every Southern state has been aroused. Taxes for school purposes are voted freely and applied with care, and with ever increasing intelligence. Already the value of good schools from a material standpoint is apparent, and a generous rivalry has been excited between the various states. Considering all the circumstances, the work done in the past ten years in behalf of education is one of the brightest chapters in the history of free institutions. * * * The history of the next ten years will be more brilliant than any of the past. The chief obstacle has been the cowardly hope that the Federal Government would do this work for us. We realize now, or at least most of us realize, that no greater calamity could have befallen education than the passage of the Blair bill. That measure is now understood in all its scope and meaning. Georgia is awake at last, and by a vote of nineteen to ten indefinitely postpones the resolution indorsing the measure. It has little support in the South. Some men are still unconvinced by the logic of events, but the head of the people is clear, and its heart beats full and strong, and now it sets itself faithfully to the great task of self-education.

We have always insisted that the bill was not a candid and statesmanlike measure, in that it sacrificed honesty and square dealing in a bid for Southern votes. The proposition to throw a great sum of money into the Southern states to be distributed by the authorities there without even the pretense of rendering an account to the federal treasury was a powerful temptation to Southern cupidity, and it is to the credit of the Southern leaders that they have had the firmness and self-respect to resist a bill that would have placed them in the attitude of paupers. They could not, consistently with their self-respect, accept a bounty from the federal government while the states of the North were maintaining their schools without this assistance.

The bill cunningly proposed to distribute the money on the basis of illiteracy, thus giving it the appearance of a national appropriation, while the bulk of it went to the South. This would place New York equally with Texas in the list of pauper states. Mr. Blair would have stood higher in public estimation as a statesman if he had frankly avowed that the purpose of the bill was to cure illiteracy in the South, and limited its distribution to the states that needed it, *on the basis of attendance*. This would at least have brought the children to school. But on the basis of illiteracy it would have encouraged ignorance as the surest way of increasing the share of the state, and as an increase of schools would be contrary to public policy, the money would go to other purposes. The stealing that the bill would provoke would be like that of Tammany in its palmiest days, when Tweed ruled the roost.

If Mr. Blair will frame a bill for the promotion of education in the South, based on actual school attendance, and under the supervision of the authority that pays the money, he will be surprised at the welcome it receives. The country has the money to educate its people, but it wishes the work to be done honestly and in a way to benefit the people for whom it is intended. The Blair bill contains no guarantee of this.

BLOODY DAYS.

> These are bloody days. On Wednesday Marshal Nagle shot and killed Judge David S. Terry at Lathrop, in California. On Tuesday W. S. Glendennin shot and seriously wounded Judge Pierce of the Superior Court of California at San Diego, in that state. On Wednesday Turnkey Herbert of Covington, in Kentucky, shot and fatally wounded W. W. Haines. On the same day a mob at Orange, in Texas, hanged and shot Jim Brooks, an escaped negro convict. On Wednesday also a band of negroes shot and fatally wounded Chief of Police Gaston at Jackson, in Tennessee. Last Sunday Farmer Hicks of Humboldt, in Tennessee, killed Farmer Cash with a club.—*New York Sun, to-day.*

Turning to the *Sun's* telegraphic columns, we learn that on Wednesday night J. W. Ackerman shot his son-in-law J. H. Thorp at Rahway, N. J., inflicting a probably fatal wound; George Clark killed himself at Kinderhook yesterday morning because his sweetheart May Hubbard jilted him; Harry Terlan was murdered by a woman yesterday morning at a dance in Covington, Ky.; Gen. Theodore West of Washington died at Asbury Park, N. J., yesterday from injuries inflicted by Sterling Ruffin in a fight on the 6th of July; Miss Emma Shepherd was fatally shot by her lover, named Miller, at Deckertown, N. J., yesterday morning; Thomas F. Thomas was fatally shot at Roslyn, Wis., Wednesday night by Fred Loshman in a quarrel over $2, and Loshman was lynched yesterday morning; Oscar Wehl, artist, committed suicide by shooting in his room at the foot of West 152d street, New York sometime between Tuesday and yesterday morning; H. G. Stone filled the body of Dr. Hitchcock with bullets at Comanche, Iowa, Wednesday morning; Bill Westmoreland, colored, was hanged yesterday at Jacksonville, Fla., for the murder of his wife. From another paper we learn that Revenue Collector Weller was shot dead by a moonshiner named Brownell near Jacksonville Wednesday night; an Italian laborer was shot dead in a riot at Petersburg, Pa., last night. Perhaps this is enough for one day's gathering of news. A dozen or more murders are recorded, with only one legal hanging and two lynchings. The gallows does not keep pace with the assassin, though Judge Lynch works with twice the celerity of the law.

REPUBLICAN STATE CONVENTION.

The Republican State Convention has been called to meet at Saratoga on the 25th of September. Syracuse and Buffalo were aspirants for the honor, but Saratoga won easily after the assurance was given that the hotels would be kept open till October 1st. Saratoga has been a favorite place for Republican conventions, six having been held there within the last dozen years. The following is the record with dates:

1878—Sept. 26, Saratoga.

1879—Sept. 3, Saratoga.

1880 (Electors)—Feb. 25, Utica.

1880—Chief Justice nominated by State Committee, Aug. 24, New York.

1881—October 5th, New York.

1882—Sept. 20, Saratoga.

1883—Sept. 19, Richfield Springs.

1884—April 23, Utica.

1885—Sept. 22, Saratoga.

1886—Chief Justice nominated by State Committee, Sept. 29, New-York.

1887—Sept. 14, Saratoga.

1888 (Electors)—May 16, Buffalo.

1888—Aug. 28, Saratoga.

Hon. Cornelius N. Bliss resigned the chairmanship of the State Committee, which he had filled with great ability and industry for several years, and Gen. John N. Knapp of Auburn was elected to succeed him. The sentiment of the meeting was unanimously in favor of high license as the leading issue of the campaign. Hon. A. T. Clearwater represented the seventeenth district in the committee, as proxy for ex-Congressman Lindsley.

NOT AN OFF YEAR.

Some Things that the Democrats Would Do if They Could.

[From the New York Tribune.]

The State Committee has done wisely in calling the convention for September 25. This will make rather a short campaign, but one which need not be any the less brisk and decisive on that account. The retirement of Cornelius N. Bliss from the post of chairman of the committee was, of course, foreseen. Mr. Bliss has already served much longer than his personal inclinations would have directed, and he has earned the heartiest thanks of the party for his unselfish devotion to its interests. The election of General John N. Knapp as his successor was equally a foregone conclusion. General Knapp will make an efficient and able chairman, and the work of the campaign is thus begun under the best auspices.

There is one notion existing, no doubt, in the minds of many Republicans which we want to dispel—that this is, in an ordinary sense, an "off year." It is well known that the Democrats mean to strain every nerve to carry the Legislature. It is even said now that they are prepared, if necessary, to sacrifice their state ticket in order to accomplish this. They see a great many advantages to be gained. The first step in their programme, in case they carry the Legislature, is to pass a law providing for an immediate enumeration of the inhabitants of the state, to be completed while the Legislature is still in session, and to be swiftly followed by a reapportionment of the legislative districts. In this way, if they should secure the Legislature, they would come near to making sure of the next United States Senator; they would expect to secure a Democratic Constitutional Convention, to revise the fundamental law of the state under the all-wise and all-pure supervision of David B. Hill; and they would expect also to have the execution of the new Congressional apportionment, and with that, perhaps, to win the balance of power in the National House of Representatives.

No, this is not an off year, by any means. There is a great deal for Republicans to work for. The Saratoga Convention will be the largest in the history of the party, consisting of 777 delegates, under the popular method of representation obtaining in the Republican party. Let men of high character and ability be sent as delegates. The work they will have to do is important.

PUBLIC OPINION.

"One by one the stars fade out," and one by one the beloved disciples of Tammany send in a resignation, "trusting that the public will not prejudge their case." The Flack divorce iniquity is the lever that is prying them out. Justice Monell's is the latest departure.—*Albany Journal.*

Nothing future is more certain than that sooner or later, if the racing of ocean passenger steamships be not previously checked by the common sense of the companies or the coercive pressure of public sentiment, it will be stopped by a disaster that will carry heartache into hundreds of homes.—*Hartford Courant.*

The state camp at Peekskill may be a good thing as a military training school, but unless they subject themselves to the strictest discipline there, some of our militiamen seem liable to suffer mentally. The other day a private of a Buffalo regiment drowned himself while out of his head, and Tuesday an officer was found aimlessly wandering on the railway track in his stocking feet.—*Utica Herald.*

Hats off to Governor Lowry! Jake Kilrain follows John L. Sullivan to Mississippi, and indictments are announced as having been found against the referee, trainers, seconds, backers, bottle-holders and other participants in the Richburg fight. At this rate the last prize fight has been held in the United States, and the credit will belong to Mississippi's Chief Executive.—*New York Graphic.*

A Mugwump contemporary is afraid that the "Assistant Postmaster General's official cleaver will injure the party." Clarkson has a big work ahead of him. He has only just begun. Some thirty-five thousand Democratic postmasters have yet to walk the plank. Only a little over one-fourth of them have resigned or been displaced. The Postoffice Department had a hopeless lot of ignoramuses in it when Clarkson began his work. It takes time to weed them out effectually.—*Chicago Inter-Ocean.*

The Weising Lotteries of China—Bankrupt Italian Towns—The Policy of the New Governor of Crete—Practice of Prussian Artillery—A Crisis in Manitoba.

Dr. Lyon, analyst to the Government of Bombay, in his last annual report, has much to say on the use of poison in India. This seems to be on the increase, for while he had to deal with 360 of these cases last year, he had only 282 the year before, and the general work of analysis had increased five-fold since the first report was issued in 1872. Part of this enormous increase is due to the increase in the criminal use of poisons, and it is noticeable that vegetable poisons, which were most generally in use a few years ago, are now giving way to metallic poisons. This is attributable to the ease with which such drugs, such as arsenic, may now be obtained in India, there being practically no restriction on their sale. In 84 undoubted cases of human poisoning in the year, arsenic was used in 41, pounded glass in three, copper in six, mercury in five, and red lead in three. Of the remaining 27 cases opium was used in 15, datura in five, alcohol in two, prussic acid in one, and oleander and other plants for the remainder. In a large number of cases the poisoner is never discovered; a family sits down to rice which they have themselves carefully washed; all are taken ill and one dies; arsenious oxide in large quantities is discovered in the dish, but the murderer is never discovered. Many cases of a similar character are quoted by Dr. Lyon. Flour is found in many cases to be adulterated with an enormous amount of arsenious oxide. Poisoning by powdered glass is comparatively new in India; there were only three cases during the year. In one a man threw a packet of pounded glass into a race-mill; in another a woman pounded her colored-glass bangles and mixed the powder with the grain she was grinding for her husband's food. In many cases the poisons are traced to village sorcerers, who always appear to have large quantities, their chief stock being composed of the bases of powerful alkaloids, of opium, datura, plumbago-root, and various mercurial compounds. Through these men poisons are easily procured, and the instances quoted by Dr. Lyon show that poisoning is a very common crime in India on account of these facilities, and that it is also one most difficult to discover.

The most famous of the many lotteries in China at the present time is that known as the Weising. It is of recent origin, is most popular in Southern China and among the Cantonese, and is briefly described by the Consul at Canton in his last report on the trade of that place. After describing the great College established by the Viceroy for the encouragement of the study of native literature, with its 100 acres of ground in the City, surrounded by high walls and a moat, its lecture-rooms, residences and endowments, Mr. Alabaster observes that, although Canton is not a literary City, there is no want of opportunities of education. Colleges abound, and any boy who shows ability has no difficulty in obtaining teaching and support as long as there is hope of success in the examinations, which in China take the place of the race course elsewhere. Gambling, in the shape of lotteries on the successful candidates, is licensed, and in place of putting money on the Derby the Cantonese satisfy their taste for speculation by backing favorite students. The lists of those entering are published, and the man who can prick on the list of entries the greatest number of successful scholars wins the lottery. Men ruin themselves buying lottery tickets. Tickets are forged or stolen, promising students are hocussed or bribed not to put out their powers; examinations are, it is hinted, exposed to serious temptations; but as racing encourages the breed of horses, so the Weising lottery encourages the pursuit of learning and furnishes the local Government with a considerable revenue in the amount given for the monopoly of carrying it on.

Max J. Becker, President of the American Society of Civil Engineers, in a recent address to that body, draws a vivid picture of the future of electricity, which, he says, is certainly destined to excel all the forces of Nature in the extended range of its useful application. In the prosecution of subterranean or subaqueous operations, such as tunneling, mining, sinking of caissons, the use of electric light is found to be of special benefit. In its incandescent form it is absolutely safe against the dangers from explosive gases, and in caisson work it removes the risks and inconveniences incident to the ready and rapid combustion of inflammable substances under the influence of high atmospheric pressure. In discussing electric street railways, and their ready adaptability here cable lines and horse traction are out of the question. Mr. Becker refers to an electric railway at Alleghany City, which, in a distance of one mile out of a total length of four miles, ascends, with a speed of fully four miles per hour, a hill over 400 feet high upon a gradient of 12½ per cent. with numerous curves of 40 feet radius, the cars being often loaded with 75 people. Upon the lower portion of this line the electric current is supplied by means of an underground connection, and on the upper portion of the line by the ordinary overhead conductors.

The *London Times'* Vienna correspondent writes: "Yesterday the zone system came into operation on the Hungarian railway lines. For traveling purposes the country is now divided into 14 zones, and the fares are henceforth to be regulated by 'zoneage,' and not by simple kilometric distance. Thus the fares from Budapest to all the places within one zone are uniform in each class, although different sets of fares are still maintained for fast and slow trains. Fares are also to be uniform for passengers traveling from place to place within the same zone. Three classes of carriages will be kept up as heretofore. This new system, due to the bold initiative of M. Baross, Minister of Communications, marks an epoch in the history of railway traveling, and it is inaugurated with a very large reduction of fares. The following is the list of the new fares, first-class express, from various places to Budapest—it being noted that the third-class fare is half of the first-class, and that the fares for slow trains are 20 per cent. less than for expresses—: From Vienna to Budapest, 9fl. 60 kr.; from Semlin, 9fl. 60kr.; from Flume, 8fl.; from Lemberg, 22fl. 75kr., and from Gracow, 24fl. 25kr. Comparing these new fares with the old, one finds a general reduction of about 25 per cent."

After a sharp correspondence between him and William A. Poste, Deputy Attorney-General, Corporation Counsel Clark has withdrawn from the suit brought by Attorney-General Tabor, at the request of General James C. Duane, to test the right of the latter as a retired army officer to hold the office of Aqueduct Commissioner. Mr. Clark had advised Mayor Grant that the General was ineligible. Up to a few days ago it was believed that the case agreed on between the Attorney-General and the counsel for General Duane, which was to be submitted to the Supreme Court, was satisfactory to all concerned. This agreed case, however, is not satisfactory to Mr. Clark, who holds that it is much too favorable to General Duane, and omits points against him. He objects also to having the hearing in Albany County.

Dr. Brown-Sequard is an American. His father, Captain Edward Brown, of the American Navy, was a Philadelphian and married a French woman on the Island of Mauritius named Sequard. He and his descendents took the name Brown-Sequard. The distinguished scientist, whose elixir of youth is making a sensation, was their eldest child. He was educated in France but was afterward a professor at Harvard and practiced medicine in New-York City for some years subsequent to 1873. He married twice, his first wife being Miss Fletcher, of Boston, a relative of Daniel Webster.

This year's practice of the Prussian Artillery Brigade of the Guards at Hammerstein, in Eastern Prussia, derived considerable interest from the fact that the so-called smokeless powder was tried for the first time in Germany, and stood the test most satisfactorily. The first regiment consisted of 11 batteries, the second of eight, and each spent at least a day in firing all sorts of projectiles with the smokeless powder. At each shot all that was visible was a ball of black smoke about three feet in diameter, which quickly disappeared.

Arthur C. Christian, Manager of the Armour Company at Duluth, Minn., who was arrested on Monday for selling dressed beef in defiance of the law passed by the last Legislature, refused to pay the fine of $30, and was put into jail. When the case came up in the District Court on *habeas corpus* proceedings, it was held that the law was plainly unconstitutional, infringing both on the right of Inter-State Commerce and of trade, and the release of Christian was ordered.

Recently J. Greenway, Premier of Manitoba, announced that the Government would at the next session of Parliament abolish the grant for the maintenance of Catholic schools throughout the country and abolish dual languages, doing all public printing in English alone, instead of English and French as at present. A remarkable sight was witnessed at the Bailey station, in Cass County, Mo., on a recent evening. The sun was getting low when a train pulled in, and the engine began to let off steam. As soon as released the steam began to form, and in a short time a complete rainbow could be seen a few feet above the engine, and reaching to the ground on either side. It was a beautiful sight, and remained as long as the engineer released steam from the engine.

Colonell Huss, of Mount Vernon, Colonel Blakeman, of Sheldon, Conn., and Patrick Wade, of Bridgeport, Conn., a committee from the Seventeenth Connecticut Regiment, yesterday located the position for their monument on the slope of Cemetery Hill, Pennsylvania. Emperor William's reign has been signalized by an enormous increase of suicides among his corps of officers of the general army. No less than 23 are officially reported as having shot themselves during the month of June. This may possibly be regarded as a gentle hint to the Kaiser to hasten to declare war.

The phonograph will be used in the teaching of elocution in St. Joseph's Academy, at Greensburg, Pa. It magnifies defects of enunciation, and at a recent test a pupil honestly tried to repudiate as not his own a speech it had recorded. He could not believe he was so faulty.

John and Emma Berger were before the Baltimore Criminal Court yesterday, charged under separate indictments with selling lottery policies. John pleaded guilty, and was sentenced to pay a fine of $1,000. The State accepted a plea of not guilty as to Emma.

GENERAL SPORTING NEWS.

ON THE DIAMOND, THE RACE TRACK AND CINDER PATH.

The Record of the League and Association Base Ball Clubs to Date—Wheelmen at Lockport—Some Personal Points About Sporting Men By-the-Wayside.

A dispatch from Lockport, N. Y., reads: New-York bicyclists own the town and own five first and two second prizes which they captured at the annual tournament of the Lockport Wheelmen. The weather was cold and a heavy wind prevailed, preventing the making of fast time. But for this the fastest half-mile amateur would have been beaten. The half-mile State championship race was assigned to this City by the law, and was a big drawing card. It brought W. F. Class, W. B. Ping, John W. Shoeffer, A. C. Banker and L. L. Clark, of the Berkeley Athletic Club of the Metropolis here. That they are rapid fellows is shown by the way they ran. Banker won the two-mile lap in 6:30, Campbell, of Niagara Falls, second. Clark, of New-York, won the 100-yards slow race in 1:11. The half-mile State championship race was a most exciting contest between Campbell, of Niagara Falls, and Shoeffer, of New-York, Campbell winning by hardly a tire, time, 1:21. Shoeffer was but one-fifth of a second behind. J. H. H. Gerrie, of Toronto, won the half-mile hands-off race in 1:43, and C. J. Connelly, of Rochester, the mile safety in 3:25. The mile team race was a walk-over for the New-York boys, Shoeffer, Baker and Clark. The mile handicap went to E. A. Folsom, of Rochester, in 2:52. The half-mile open was a big race, in which Banker beat Campbell in 1:24. It was close to the finish. Class, of New-York, took the consolation race. The time of the State championship half-mile race was the best ever ran over this half-mile track.

The Weising Lotteries of China—Bankrupt Italian Towns—The Policy of the New Governor of Crete—Practice of Prussian Artillery—A Crisis in Manitoba.

Dr. Lyon, analyst to the Government of Bombay, in his last annual report, has much to say on the use of poison in India. This seems to be on the increase, for while he had to deal with 360 of these cases last year, he had only 282 the year before, and the general work of analysis had increased five-fold since the first report was issued in 1872. Part of this enormous increase is due to the increase in the criminal use of poisons, and it is noticeable that vegetable poisons, which were most generally in use a few years ago, are now giving way to metallic poisons. This is attributable to the ease with which such drugs, such as arsenic, may now be obtained in India, there being practically no restriction on their sale. In 84 undoubted cases of human poisoning in the year, arsenic was used in 41, pounded glass in three, copper in six, mercury in five, and red lead in three. Of the remaining 27 cases opium was used in 15, datura in five, alcohol in two, prussic acid in one, and oleander and other plants for the remainder. In a large number of cases the poisoner is never discovered; a family sits down to rice which they have themselves carefully washed; all are taken ill and one dies; arsenious oxide in large quantities is discovered in the dish, but the murderer is never discovered. Many cases of a similar character are quoted by Dr. Lyon. Flour is found in many cases to be adulterated with an enormous amount of arsenious oxide. Poisoning by powdered glass is comparatively new in India; there were only three cases during the year. In one a man threw a packet of pounded glass into a race-mill; in another a woman pounded her colored-glass bangles and mixed the powder with the grain she was grinding for her husband's food. In many cases the poisons are traced to village sorcerers, who always appear to have large quantities, their chief stock being composed of the bases of powerful alkaloids, of opium, datura, plumbago-root, and various mercurial compounds. Through these men poisons are easily procured, and the instances quoted by Dr. Lyon show that poisoning is a very common crime in India on account of these facilities, and that it is also one most difficult to discover.

The most famous of the many lotteries in China at the present time is that known as the Weising. It is of recent origin, is most popular in Southern China and among the Cantonese, and is briefly described by the Consul at Canton in his last report on the trade of that place. After describing the great College established by the Viceroy for the encouragement of the study of native literature, with its 100 acres of ground in the City, surrounded by high walls and a moat, its lecture-rooms, residences and endowments, Mr. Alabaster observes that, although Canton is not a literary City, there is no want of opportunities of education. Colleges abound, and any boy who shows ability has no difficulty in obtaining teaching and support as long as there is hope of success in the examinations, which in China take the place of the race course elsewhere. Gambling, in the shape of lotteries on the successful candidates, is licensed, and in place of putting money on the Derby the Cantonese satisfy their taste for speculation by backing favorite students. The lists of those entering are published, and the man who can prick on the list of entries the greatest number of successful scholars wins the lottery. Men ruin themselves buying lottery tickets. Tickets are forged or stolen, promising students are hocussed or bribed not to put out their powers; examinations are, it is hinted, exposed to serious temptations; but as racing encourages the breed of horses, so the Weising lottery encourages the pursuit of learning and furnishes the local Government with a considerable revenue in the amount given for the monopoly of carrying it on.

Max J. Becker, President of the American Society of Civil Engineers, in a recent address to that body, draws a vivid picture of the future of electricity, which, he says, is certainly destined to excel all the forces of Nature in the extended range of its useful application. In the prosecution of subterranean or subaqueous operations, such as tunneling, mining, sinking of caissons, the use of electric light is found to be of special benefit. In its incandescent form it is absolutely safe against the dangers from explosive gases, and in caisson work it removes the risks and inconveniences incident to the ready and rapid combustion of inflammable substances under the influence of high atmospheric pressure. In discussing electric street railways, and their ready adaptability here cable lines and horse traction are out of the question. Mr. Becker refers to an electric railway at Alleghany City, which, in a distance of one mile out of a total length of four miles, ascends, with a speed of fully four miles per hour, a hill over 400 feet high upon a gradient of 12½ per cent. with numerous curves of 40 feet radius, the cars being often loaded with 75 people. Upon the lower portion of this line the electric current is supplied by means of an underground connection, and on the upper portion of the line by the ordinary overhead conductors.

The *London Times'* Vienna correspondent writes: "Yesterday the zone system came into operation on the Hungarian railway lines. For traveling purposes the country is now divided into 14 zones, and the fares are henceforth to be regulated by 'zoneage,' and not by simple kilometric distance. Thus the fares from Budapest to all the places within one zone are uniform in each class, although different sets of fares are still maintained for fast and slow trains. Fares are also to be uniform for passengers traveling from place to place within the same zone. Three classes of carriages will be kept up as heretofore. This new system, due to the bold initiative of M. Baross, Minister of Communications, marks an epoch in the history of railway traveling, and it is inaugurated with a very large reduction of fares. The following is the list of the new fares, first-class express, from various places to Budapest—it being noted that the third-class fare is half of the first-class, and that the fares for slow trains are 20 per cent. less than for expresses—: From Vienna to Budapest, 9fl. 60 kr.; from Semlin, 9fl. 60kr.; from Flume, 8fl.; from Lemberg, 22fl. 75kr., and from Gracow, 24fl. 25kr. Comparing these new fares with the old, one finds a general reduction of about 25 per cent."

After a sharp correspondence between him and William A. Poste, Deputy Attorney-General, Corporation Counsel Clark has withdrawn from the suit brought by Attorney-General Tabor, at the request of General James C. Duane, to test the right of the latter as a retired army officer to hold the office of Aqueduct Commissioner. Mr. Clark had advised Mayor Grant that the General was ineligible. Up to a few days ago it was believed that the case agreed on between the Attorney-General and the counsel for General Duane, which was to be submitted to the Supreme Court, was satisfactory to all concerned. This agreed case, however, is not satisfactory to Mr. Clark, who holds that it is much too favorable to General Duane, and omits points against him. He objects also to having the hearing in Albany County.

Dr. Brown-Sequard is an American. His father, Captain Edward Brown, of the American Navy, was a Philadelphian and married a French woman on the Island of Mauritius named Sequard. He and his descendents took the name Brown-Sequard. The distinguished scientist, whose elixir of youth is making a sensation, was their eldest child. He was educated in France but was afterward a professor at Harvard and practiced medicine in New-York City for some years subsequent to 1873. He married twice, his first wife being Miss Fletcher, of Boston, a relative of Daniel Webster.

This year's practice of the Prussian Artillery Brigade of the Guards at Hammerstein, in Eastern Prussia, derived considerable interest from the fact that the so-called smokeless powder was tried for the first time in Germany, and stood the test most satisfactorily. The first regiment consisted of 11 batteries, the second of eight, and each spent at least a day in firing all sorts of projectiles with the smokeless powder. At each shot all that was visible was a ball of black smoke about three feet in diameter, which quickly disappeared.

Arthur C. Christian, Manager of the Armour Company at Duluth, Minn., who was arrested on Monday for selling dressed beef in defiance of the law passed by the last Legislature, refused to pay the fine of $30, and was put into jail. When the case came up in the District Court on *habeas corpus* proceedings, it was held that the law was plainly unconstitutional, infringing both on the right of Inter-State Commerce and of trade, and the release of Christian was ordered.

Recently J. Greenway, Premier of Manitoba, announced that the Government would at the next session of Parliament abolish the grant for the maintenance of Catholic schools throughout the country and abolish dual languages, doing all public printing in English alone, instead of English and French as at present. Ever since the announcement the French and Catholic people have been greatly excited, and yesterday the French members of the Cabinet decided to resign.

A remarkable sight was witnessed at the Bailey station, in Cass County, Mo., on a recent evening. The sun was getting low when a train pulled in, and the engine began to let off steam. As soon as released the steam began to form, and in a short time a complete rainbow could be seen a few feet above the engine, and reaching to the ground on either side. It was a beautiful sight, and remained as long as the engineer released steam from the engine.

Emperor William's reign has been signalized by an enormous increase of suicides among his corps of officers of the general army. No less than 23 are officially reported as having shot themselves during the month of June. This may possibly be regarded as a gentle hint to the Kaiser to hasten to declare war.

In Nevada electricity runs the very deep mines and has increased production 25 per cent. The men who work at 3,100 feet deep live about two years, notwithstanding the fact that they work only about two hours per day. They get more pay than eight-hour men. They work 15 minutes and rest 45.

The phonograph will be used in the teaching of elocution in St. Joseph's Academy, at Greensburg, Pa. It magnifies defects of enunciation, and at a recent test a pupil honestly tried to repudiate as not his own a speech it had recorded. He could not believe he was so faulty.

ON THE DIAMOND, THE RACE TRACK AND CINDER PATH.

The Record of the League and Association Base Ball Clubs to Date—Wheelmen at Lockport—Some Personal Points About Sporting Men By-the-Wayside.

A dispatch from Lockport, N. Y., reads: New-York bicyclists own the town and own five first and two second prizes which they captured at the annual tournament of the Lockport Wheelmen. The weather was cold and a heavy wind prevailed, preventing the making of fast time. But for this the fastest half-mile amateur would have been beaten. The half-mile State championship race was assigned to this City by the law, and was a big drawing card. It brought W. F. Class, W. B. Ping, John W. Shoeffer, A. C. Banker and L. L. Clark, of the Berkeley Athletic Club of the Metropolis here. That they are rapid fellows is shown by the way they ran. Banker won the two-mile lap in 6:30, Campbell, of Niagara Falls, second. Clark, of New-York, won the 100-yards slow race in 1:11. The half-mile State championship race was a most exciting contest between Campbell, of Niagara Falls, and Shoeffer, of New-York, Campbell winning by hardly a tire, time, 1:21. Shoeffer was but one-fifth of a second behind. J. H. H. Gerrie, of Toronto, won the half-mile hands-off race in 1:43, and C. J. Connelly, of Rochester, the mile safety in 3:25. The mile team race was a walk-over for the New-York boys, Shoeffer, Baker and Clark. The mile handicap went to E. A. Folsom, of Rochester, in 2:52. The half-mile open was a big race, in which Banker beat Campbell in 1:24. It was close to the finish. Class, of New-York, took the consolation race. The time of the State championship half-mile race was the best ever ran over this half-mile track.

The Weising Lotteries of China—Bankrupt Italian Towns—The Policy of the New Governor of Crete—Practice of Prussian Artillery—A Crisis in Manitoba.

Dr. Lyon, analyst to the Government of Bombay, in his last annual report, has much to say on the use of poison in India. This seems to be on the increase, for while he had to deal with 360 of these cases last year, he had only 282 the year before, and the general work of analysis had increased five-fold since the first report was issued in 1872. Part of this enormous increase is due to the increase in the criminal use of poisons, and it is noticeable that vegetable poisons, which were most generally in use a few years ago, are now giving way to metallic poisons. This is attributable to the ease with which such drugs, such as arsenic, may now be obtained in India, there being practically no restriction on their sale. In 84 undoubted cases of human poisoning in the year, arsenic was used in 41, pounded glass in three, copper in six, mercury in five, and red lead in three. Of the remaining 27 cases opium was used in 15, datura in five, alcohol in two, prussic acid in one, and oleander and other plants for the remainder. In a large number of cases the poisoner is never discovered; a family sits down to rice which they have themselves carefully washed; all are taken ill and one dies; arsenious oxide in large quantities is discovered in the dish, but the murderer is never discovered. Many cases of a similar character are quoted by Dr. Lyon. Flour is found in many cases to be adulterated with an enormous amount of arsenious oxide. Poisoning by powdered glass is comparatively new in India; there were only three cases during the year. In one a man threw a packet of pounded glass into a race-mill; in another a woman pounded her colored-glass bangles and mixed the powder with the grain she was grinding for her husband's food. In many cases the poisons are traced to village sorcerers, who always appear to have large quantities, their chief stock being composed of the bases of powerful alkaloids, of opium, datura, plumbago-root, and various mercurial compounds. Through these men poisons are easily procured, and the instances quoted by Dr. Lyon show that poisoning is a very common crime in India on account of these facilities, and that it is also one most difficult to discover.

The most famous of the many lotteries in China at the present time is that known as the Weising. It is of recent origin, is most popular in Southern China and among the Cantonese, and is briefly described by the Consul at Canton in his last report on the trade of that place. After describing the great College established by the Viceroy for the encouragement of the study of native literature, with its 100 acres of ground in the City, surrounded by high walls and a moat, its lecture-rooms, residences and endowments, Mr. Alabaster observes that, although Canton is not a literary City, there is no want of opportunities of education. Colleges abound, and any boy who shows ability has no difficulty in obtaining teaching and support as long as there is hope of success in the examinations, which in China take the place of the race course elsewhere. Gambling, in the shape of lotteries on the successful candidates, is licensed, and in place of putting money on the Derby the Cantonese satisfy their taste for speculation by backing favorite students. The lists of those entering are published, and the man who can prick on the list of entries the greatest number of successful scholars wins the lottery. Men ruin themselves buying lottery tickets. Tickets are forged or stolen, promising students are hocussed or bribed not to put out their powers; examinations are, it is hinted, exposed to serious temptations; but as racing encourages the breed of horses, so the Weising lottery encourages the pursuit of learning and furnishes the local Government with a considerable revenue in the amount given for the monopoly of carrying it on.

Max J. Becker, President of the American Society of Civil Engineers, in a recent address to that body, draws a vivid picture of the future of electricity, which, he says, is certainly destined to excel all the forces of Nature in the extended range of its useful application. In the prosecution of subterranean or subaqueous operations, such as tunneling, mining, sinking of caissons, the use of electric light is found to be of special benefit. In its incandescent form it is absolutely safe against the dangers from explosive gases, and in caisson work it removes the risks and inconveniences incident to the ready and rapid combustion of inflammable substances under the influence of high atmospheric pressure. In discussing electric street railways, and their ready adaptability here cable lines and horse traction are out of the question. Mr. Becker refers to an electric railway at Alleghany City, which, in a distance of one mile out of a total length of four miles, ascends, with a speed of fully four miles per hour, a hill over 400 feet high upon a gradient of 12½ per cent. with numerous curves of 40 feet radius, the cars being often loaded with 75 people. Upon the lower portion of this line the electric current is supplied by means of an underground connection, and on the upper portion of the line by the ordinary overhead conductors.

The *London Times'* Vienna correspondent writes: "Yesterday the zone system came into operation on the Hungarian railway lines. For traveling purposes the country is now divided into 14 zones, and the fares are henceforth to be regulated by 'zoneage,' and not by simple kilometric distance. Thus the fares from Budapest to all the places within one zone are uniform in each class, although different sets of fares are still maintained for fast and slow trains. Fares are also to be uniform for passengers traveling from place to place within the same zone. Three classes of carriages will be kept up as heretofore. This new system, due to the bold initiative of M. Baross, Minister of Communications, marks an epoch in the history of railway traveling, and it is inaugurated with a very large reduction of fares. The following is the list of the new fares, first-class express, from various places to Budapest—it being noted that the third-class fare is half of the first-class, and that the fares for slow trains are 20 per cent. less than for expresses—: From Vienna to Budapest, 9fl. 60 kr.; from Semlin, 9fl. 60kr.; from Flume, 8fl.; from Lemberg, 22fl. 75kr., and from Gracow, 24fl. 25kr. Comparing these new fares with the old, one finds a general reduction of about 25 per cent."

After a sharp correspondence between him and William A. Poste, Deputy Attorney-General, Corporation Counsel Clark has withdrawn from the suit brought by Attorney-General Tabor, at the request of General James C. Duane, to test the right of the latter as a retired army officer to hold the office of Aqueduct Commissioner. Mr. Clark had advised Mayor Grant that the General was ineligible. Up to a few days ago it was believed that the case agreed on between the Attorney-General and the counsel for General Duane, which was to be submitted to the Supreme Court, was satisfactory to all concerned. This agreed case, however, is not satisfactory to Mr. Clark, who holds that it is much too favorable to General Duane, and omits points against him. He objects also to having the hearing in Albany County.

Dr. Brown-Sequard is an American. His father, Captain Edward Brown, of the American Navy, was a Philadelphian and married a French woman on the Island of Mauritius named Sequard. He and his descendents took the name Brown-Sequard. The distinguished scientist, whose elixir of youth is making a sensation, was their eldest child. He was educated in France but was afterward a professor at Harvard and practiced medicine in New-York City for some years subsequent to 1873. He married twice, his first wife being Miss Fletcher, of Boston, a relative of Daniel Webster.

This year's practice of the Prussian Artillery Brigade of the Guards at Hammerstein, in Eastern Prussia, derived considerable interest from the fact that the so-called smokeless powder was tried for the first time in Germany, and stood the test most satisfactorily. The first regiment consisted of 11 batteries, the second of eight, and each spent at least a day in firing all sorts of projectiles with the smokeless powder. At each shot all that was visible was a ball of black smoke about three feet in diameter, which quickly disappeared.

Arthur C. Christian, Manager of the Armour Company at Duluth, Minn., who was arrested on Monday for selling dressed beef in defiance of the law passed by the last Legislature, refused to pay the fine of $30, and was put into jail. When the case came up in the District Court on *habeas corpus* proceedings, it was held that the law was plainly unconstitutional, infringing both on the right of Inter-State Commerce and of trade, and the release of Christian was ordered.

Recently J. Greenway, Premier of Manitoba, announced that the Government would at the next session of Parliament abolish the grant for the maintenance of Catholic schools throughout the country and abolish dual languages, doing all public printing in English alone, instead of English and French as at present. Ever since the announcement the French and Catholic people have been greatly excited, and yesterday the French members of the Cabinet decided to resign.

Postmaster-General Raikes said in the British House of Commons last night that he believed that the letter from President Harrison expressing thanks to the Lord Mayor of Dublin for sympathy in behalf of the Johnstown sufferers had been opened, but by whom and when he was unable to state, J. Sexton, who called attention to the matter, having refused to place the envelope in his hands. Mr. Sexton thereupon promised to produce the envelope.

A remarkable sight was witnessed at the Bailey station, in Cass County, Mo., on a recent evening. The sun was getting low when a train pulled in, and the engine began to let off steam. As soon as released the steam began to form, and in a short time a complete rainbow could be seen a few feet above the engine, and reaching to the ground on either side. It was a beautiful sight, and remained as long as the engineer released steam from the engine.

Colonell Huss, of Mount Vernon, Colonel Blakeman, of Sheldon, Conn., and Patrick Wade, of Bridgeport, Conn., a committee from the Seventeenth Connecticut Regiment, yesterday located the position for their monument on the slope of Cemetery Hill, Pennsylvania. The monument will probably be dedicated on October 15.

The subsidiary high court of the Ancient Order of Foresters yesterday at Indianapolis voted to sever all connection with the high court of England and organize as an American high court. The differences arose over the admission of colored men to the order, the English high court insisting on it and the American objecting.

Emperor William's reign has been signalized by an enormous increase of suicides among his corps of officers of the general army. No less than 23 are officially reported as having shot themselves during the month of June. This may possibly be regarded as a gentle hint to the Kaiser to hasten to declare war.

In Nevada electricity runs the very deep mines and has increased production 25 per cent. The men who work at 3,100 feet deep live about two years, notwithstanding the fact that they work only about two hours per day. They get more pay than eight-hour men. They work 15 minutes and rest 45.

The phonograph will be used in the teaching of elocution in St. Joseph's Academy, at Greensburg, Pa. It magnifies defects of enunciation, and at a recent test a pupil honestly tried to repudiate as not his own a speech it had recorded. He could not believe he was so faulty.

John and Emma Berger were before the Baltimore Criminal Court yesterday, charged under separate indictments with selling lottery policies. John pleaded guilty, and was sentenced to pay a fine of $1,000. The State accepted a plea of not guilty as to Emma.

The longest uninterrupted debate on record was on August 1 brought to a close by the New-Zealand House of Representatives. It had caused a continuous sitting of 76 hours, entirely given up to the discussion of a Representation bill. Yet the debate was not finished.

Temperance advocates should turn their attention to Belgium. The little kingdom contains 150,000 public houses, about one for every 40 of the population, and the annual amount of spirits consumed reaches nine litres—nearly two gallons—per head.

Preparations are being made in several German university towns to celebrate next year the three hundredth anniversary of the invention of the microscope. Zacharias Janssen, of Middleburg, put together the first microscope in 1590.

The Princess Sophia of Prussia, who is to marry the Crown Prince of Greece, will receive 2,000,000 marks from the Hohenzollern funds. Constantine, her fiance, considers these most welcome marks of German kindness.

GENERAL SPORTING NEWS.

ON THE DIAMOND, THE RACE TRACK AND CINDER PATH.

The Record of the League and Association Base Ball Clubs to Date—Wheelmen at Lockport—Some Personal Points About Sporting Men By-the-Wayside.

A dispatch from Lockport, N. Y., reads: New-York bicyclists own the town and own five first and two second prizes which they captured at the annual tournament of the Lockport Wheelmen. The weather was cold and a heavy wind prevailed, preventing the making of fast time. But for this the fastest half-mile amateur would have been beaten. The half-mile State championship race was assigned to this City by the law, and was a big drawing card. It brought W. F. Class, W. B. Ping, John W. Shoeffer, A. C. Banker and L. L. Clark, of the Berkeley Athletic Club of the Metropolis here. That they are rapid fellows is shown by the way they ran. Banker won the two-mile lap in 6:30, Campbell, of Niagara Falls, second. Clark, of New-York, won the 100-yards slow race in 1:11. The half-mile State championship race was a most exciting contest between Campbell, of Niagara Falls, and Shoeffer, of New-York, Campbell winning by hardly a tire, time, 1:21. Shoeffer was but one-fifth of a second behind. J. H. H. Gerrie, of Toronto, won the half-mile hands-off race in 1:43, and C. J. Connelly, of Rochester, the mile safety in 3:25. The mile team race was a walk-over for the New-York boys, Shoeffer, Baker and Clark. The mile handicap went to E. A. Folsom, of Rochester, in 2:52. The half-mile open was a big race, in which Banker beat Campbell in 1:24. It was close to the finish. Class, of New-York, took the consolation race. The time of the State championship half-mile race was the best ever ran over this half-mile track.

Haviland, Pastor of St. James M. E. Church, officiated. There was a large attendance. Rondout Lodge, No. 343, F. & A. M., of which the deceased had been a member for many years, was present, and the pall-bearers were from its ranks, as follows: J. H. Allen, William Hutton, William Winter, A. A. The following is "going the rounds:" "There are now five comets, all of them discovered this year, under observation by astronomers. Of these, four are so small that they will remain telescopic, but it is said that those with very keen eyes may, on clear nights, faintly discover the other comet by looking for it carefully about 8:45 P. M., in the south-western heavens. The comet is a little to the west of and a little above a very bright star, Spica, in the constellation Vego. The star is the only bright one in the western heavens, and cannot be mistaken. The comet seems like a tiny nebulous mass, but if an opera-glass is used it becomes much more plainly visible."

A certain Uptown woman is too shrewd to be caught by the "husband sends for his overcoat swindle." A stranger stopped at her house the other day and inquired for her husband and was told where he was "away at work." About an hour afterwards the stranger returned and said he had seen the husband and he had told him to tell her to give him an overcoat "to clean." The woman told the man in plain words that he was a fraud and sent him away. And she was right!

The late Judge Westbrook was a good friend of "Boot" VanSteenburgh. When "Boot" heard of the Judge's death he showed much sorrow, and said: "Theod was the best friend I had." During the past few years "Boot" has not traveled outside of Ulster County as much as usual. Last summer he was frequently at "Aunt 'Trene's Lake," where he earned many an honest penny rowing a boat for visitors. A story of "Boot" and his ways will be printed in these columns to-morrow.

A "housewife" writes: "One of the best ways to serve corn is to cut it from the cob, and stew it for 15 or 20 minutes, when it can be seasoned by adding a tablespoonful of flour and one of butter rubbed to a paste, half a pint of sweet milk, and salt and pepper to taste. The corn should be allowed to boil two minutes after the seasoning is added—the quantity of milk, butter and flour given is for one dozen ears."

LOCAL SPORTING MATTERS IN BRIEF

Races on Poughkeepsie and Ellenville Driving Parks—A Question of Distance.

The question is sometimes asked how much further does a horse or a bicycler travel when going on the "outside" of the track of the Kingston Driving Park. The track measures half a mile and has two straight sides, with sharp curves at the ends. The difference, therefore, in distance would be caused by these corners. A civil engineer says that the outer line of the track is about 190 feet further than the inner. This would make a difference on a mile of 380 feet.

Two pacing horses owned at Accord will race on the Ellenville Driving Park on August 24 for a purse of $150. F. Cronk names b. m. "Mag" and D. Friedman b. g. "Trim"; best two heats in three.

The entries for the Grand Circuit trotting meeting at Poughkeepsie next week foot up over 100, not including those for the two $5,000 stake races for the 2:30 and 2:24 classes.

The horse trot announced for yesterday afternoon on the Kingston Driving Park did not "come off" owing to rain. It was postponed until to-morrow afternoon.

Concerning Æolian Harps.

A correspondent who inquires about an "æolian harp" is informed that it is a musical instrument made by the Greeks many centuries ago, and hung among the trees, or where the wind could blow upon it, making a low, soft, musical sound. The *Baptist Weekly* tells how to make one, which is easily done and inexpensive, for most of the material can be found about the house:

> Wax a piece of buttonhole twist about two and one-half feet long; tie each end strongly to a small peg, and thrust the pegs down the crevice between the two sashes of your southern or western windows, stretching the silk as tightly as possible. It will surprise you the sweetness and variety of the tones the wind will bring from it. Having done this you may be moved to go further and prepare a more elaborate æolian harp. Take some quarter inch wood and make a box the length of your window frame, four or five inches deep and six or seven inches wide. Bore a few small holes in a circle near what will be the upper side of the back of the box when placed in the window with the open side of the box, fasten two bridges like violin bridges, one at each end, and stretch on them several strings of fine cat-gut, contriving a series of screw pins to aid in the tight-stretching necessary, and allow of their being tuned to one note. Then raise your sash on the windy side of the house, and the wind passing through the hole and over the strings will, in its rising and falling, make very sweet music.

"The Statistics of Sleep."

It is stated that "statistics of sleep may not prove anything of importance, but they are interesting. According to statistics prepared in Russia, the need of sleep is greater in women than in men, the duration of sleep being longer and the percentage of tired morning and evening and of not tired being three to two and two to three respectively as compared to the men. Students sleep longer and are less tired than other men. The time needed to fall asleep is about the same in all three classes—20.8 minutes for the men, 17.1 minutes for students, and 21.2 minutes for women. In each case, however, it takes longer for those who are frequent dreamers and light sleepers to fall asleep than persons of opposite characteristics."

The Old Senate House.

A panel containing the following inscription has been placed on the Old Senate House here:

> "Colonel Wessel TenBroeck, born at Westphalia 1635, erected this stone house about 1676, wherein the Senate of the State of New-York was held in the year of the adoption of its first Constitution, 1777, continued here until the burning of Kingston, October 16, 1777."

A Canal Boy Drowned.

At about 3 o'clock yesterday afternoon a boy named Thomas McGee, employed by William Leahy, Captain of Delaware & Hudson Canal boat No. 693, fell into the Rondout Creek on the outside of the "Island Docks" and was drowned. The Coroner's Jury rendered a verdict of accidental drowning.

BOTH SIDES NOW HEARD

IN REFERENCE TO CASES OF "BLACK DIPHTHERIA" HERE.

It is Stated That Two More Cases Have Been Reported to the Board of Health—What Dr. R. Loughran and Albert Mauterstock Have to Say This Day.

The statements made in these columns last evening by Dr. Keefe and Albert Mauterstock in reference to cases of alleged "black diphtheria" Downtown and alleged gross negligence of the Board of Health in the premises, is the principal topic of conversation in this City.

TWO MORE CASES REPORTED.

Two new cases of diphtheria have been reported to the Board of Health—one on Pierpont-street and the other on Union-avenue. Sanitary Inspector TenBroeck made an official visit to the houses to-day. It is also reported that there is a case of malignant diphtheria at Kingston Point.

WHAT DR. LOUGHRAN SAYS.

The following communication was received by THE FREEMAN to-day from Health Officer R. Loughran, M. D.:

KINGSTON, Aug. 16, 1889.

EDITOR FREEMAN:

Sir:—In yesterday's issue of your paper complaint is made by Albert Mauterstock that the Board of Health is "neglecting its duty," etc. Judging from his statement this would appear to be true. What are the facts? One of the requirements of the Board as passed and published by it is as follows:

> § 5. Every physician practicing in said City shall report in writing to the Health Officer any and every case of cholera, varioloid, small-pox, typhus, ship or yellow fever, or of any contagious, malignant or infectious disease, or of recent and dangerous exposure thereto, which shall come under his treatment or observation in said City, immediately after the fact shall have become known to him.

The case referred to by Mr. Mauterstock was first seen—according to the certificate on file in the Clerk's office—by the attending physician, on August 11 and died on August 13 at 7 A. M. This case was never reported as requested by the above section of Sanitary Code, but on Tuesday, August 13, 11 hours after death, was reported to the Clerk of the Board. The attending physician thus not only neglecting to report to the proper officer of the Board at all, but reporting as he did to the Clerk 11 hours after death instead of immediately on learning the disease of the child, after he was called, as required by law. As the Executive Officer of the Board, I had no knowledge of the case until after the burial of the child, and until attention was called to it by the opinion of the Board given by Mr. Mauterstock in the paper last evening. According to the mortuary record of this City the physician attending this case has had frequently others of like nature, not one of which has ever been reported to me as Health Officer, according to requirement of law, during my term of occupancy of the office. This same physician says in THE FREEMAN of last evening that he has another case of like nature in the same family. This case he has not reported. Also on Tuesday a five-year-old boy on Union-avenue died from "black diphtheria" [whatever that means]. He has made no report of this case, and the Board had no knowledge of it until several days after its burial, when he refers to it in assistance of criticisms on the Board. I would like to know how the Board is to take action in matters of which they have no knowledge. What they now have and have had knowledge of for some time, is that there is one physician in town who is and has been for a long time grossly neglecting his duties and the Board have neglected their duty in not bringing him up with a round turn long ago, thus shutting off this source of claimed neglect on their part. The statement of Mr. Mauterstock that a public funeral was held in the case referred to by him was incorrect. Mr. Wachmeyer, the undertaker in charge, informs me that none but the family and a Minister were present. The efficient execution of all law, especially that pertaining to Boards of Health, depends greatly on the good will and co-operation of the community in which they are to be enforced, but when those whose duties are to assist in the enforcement, block the way instead, it makes it, to say the least, up-hill work. As Mr. Mauterstock seems to be anxious for his neighbors' welfare, I would suggest to him that in pursuance of this very credible zeal he take means to abate the nuisance arising from the smoke-stack over his manufactory on Union-avenue, and thereby show to his neighbors a practical application of his philanthrophy.

Very Respectfully,
R. LOUGHRAN, M. D.,
Health Officer, City of Kingston.

WHAT MR. MAUTERSTOCK SAYS.

Albert Mauterstock to-day requested THE FREEMAN to say this: "I reiterate the statement I made yesterday in regard to the Matheis girl's funeral being a public one. The door of the house was open for any one to attend. Five or six carriages followed the remains to the cemetery. If that was not a public funeral then I would like to know what it was? The man living down stairs was there and afterward tied the bonnet strings of a little girl he met in the street. I have a family to protect and have right to feel incensed."

WHAT DR. A. HUHNE SAID.

Dr. Augustus Huhne said this forenoon that there are numerous cases of fever here. The disease is remittent, with a tendency to develop into typhoid. He also said that five employes in a factory in the Fifth Ward were ill with it, and he was inclined to believe that the more or less open sewer that runs from Gross' Pond has something to do with it.

HUDSON RIVER RIPPLES BY MAIL, ETC.

News on the East and West Banks of the Hudson and Inland.

An exciting school election was held in Cornwall yesterday. Fifty women voted. Leading society ladies brought out their carriages and carried their friends to the polls. Free text books and two new Trustees were the results of the ladies' efforts. A feature of the excitement over the election was the publication of a letter in a local newspaper casting reflections on the honesty of some members of the outgoing Board in the expenditure of school money during the past year. This led to the appointment of the Rev. Lyman Abbott, as one of an Investigating Committee, who reported to-day that they find the accounts all right, and no crookedness is to be found. A suit for damages against the paper publishing the letter referred to is threatened.

Nyack is afflicted with the peddler nuisance. The other day a peddler entered the door of a residence without invitation, and went out through a window. The force was furnished by a burly gardener.

Work at the ribbon factory at Middletown will soon be begun. Over $20,000 has been expended on repairs to the building.

School Trustees at Coeymans are ready to accept $25 a year for their valuable services in the cause of education.

The Hartwood Park Association now owns 2,625 acres of land near Forestburg, Sullivan County.

The new State Asylum for Insane Criminals at Matteawan is rapidly being completed.

Business is steadily improving in villages and cities along the Hudson River.

The following is "going the rounds:" "There are now five comets, all of them discovered this year, under observation by astronomers. Of these, four are so small that they will remain telescopic, but it is said that those with very keen eyes may, on clear nights, faintly discover the other comet by looking for it carefully about 8:45 P. M., in the south-western heavens. The comet is a little to the west of and a little above a very bright star, Spica, in the constellation Vego. The star is the only bright one in the western heavens, and cannot be mistaken. The comet seems like a tiny nebulous mass, but if an opera-glass is used it becomes much more plainly visible."

A certain Uptown woman is too shrewd to be caught by the "husband sends for his overcoat swindle." A stranger stopped at her house the other day and inquired for her husband and was told where he was "away at work." About an hour afterwards the stranger returned and said he had seen the husband and he had told him to tell her to give him an overcoat "to clean." The woman told the man in plain words that he was a fraud and sent him away. And she was right!

The late Judge Westbrook was a good friend of "Boot" VanSteenburgh. When "Boot" heard of the Judge's death he showed much sorrow, and said: "Theod was the best friend I had." During the past few years "Boot" has not traveled outside of Ulster County as much as usual. Last summer he was frequently at "Aunt 'Trene's Lake," where he earned many an honest penny rowing a boat for visitors. A story of "Boot" and his ways will be printed in these columns to-morrow.

A "housewife" writes: "One of the best ways to serve corn is to cut it from the cob, and stew it for 15 or 20 minutes, when it can be seasoned by adding a tablespoonful of flour and one of butter rubbed to a paste, half a pint of sweet milk, and salt and pepper to taste. The corn should be allowed to boil two minutes after the seasoning is added—the quantity of milk, butter and flour given is for one dozen ears."

LOCAL SPORTING MATTERS IN BRIEF.

Races on Poughkeepsie and Ellenville Driving Parks—A Question of Distance.

The question is sometimes asked how much further does a horse or a bicycler travel when going on the "outside" of the track of the Kingston Driving Park. The track measures half a mile and has two straight sides, with sharp curves at the ends. The difference, therefore, in distance would be caused by these corners. A civil engineer says that the outer line of the track is about 190 feet further than the inner. This would make a difference on a mile of 380 feet.

Two pacing horses owned at Accord will race on the Ellenville Driving Park on August 24 for a purse of $150. F. Cronk names b. m. "Mag" and D. Friedman b. g. "Trim"; best two heats in three.

The entries for the Grand Circuit trotting meeting at Poughkeepsie next week foot up over 100, not including those for the two $5,000 stake races for the 2:30 and 2:24 classes.

The horse trot announced for yesterday afternoon on the Kingston Driving Park did not "come off" owing to rain. It was postponed until to-morrow afternoon.

Concerning Æolian Harps.

A correspondent who inquires about an "æolian harp" is informed that it is a musical instrument made by the Greeks many centuries ago, and hung among the trees, or where the wind could blow upon it, making a low, soft, musical sound. The *Baptist Weekly* tells how to make one, which is easily done and inexpensive, for most of the material can be found about the house:

> Wax a piece of buttonhole twist about two and one-half feet long; tie each end strongly to a small peg, and thrust the pegs down the crevice between the two sashes of your southern or western windows, stretching the silk as tightly as possible. It will surprise you the sweetness and variety of the tones the wind will bring from it. Having done this you may be moved to go further and prepare a more elaborate æolian harp. Take some quarter inch wood and make a box the length of your window frame, four or five inches deep and six or seven inches wide. Bore a few small holes in a circle near what will be the upper side of the back of the box when placed in the window with the open side of the box, fasten two bridges like violin bridges, one at each end, and stretch on them several strings of fine cat-gut, contriving a series of screw pins to aid in the tight-stretching necessary, and allow of their being tuned to one note. Then raise your sash on the windy side of the house, and the wind passing through the hole and over the strings will, in its rising and falling, make very sweet music.

"The Statistics of Sleep."

It is stated that "statistics of sleep may not prove anything of importance, but they are interesting. According to statistics prepared in Russia, the need of sleep is greater in women than in men, the duration of sleep being longer and the percentage of tired morning and evening and of not tired being three to two and two to three respectively as compared to the men. Students sleep longer and are less tired than other men. The time needed to fall asleep is about the same in all three classes—20.8 minutes for the men, 17.1 minutes for students, and 21.2 minutes for women. In each case, however, it takes longer for those who are frequent dreamers and light sleepers to fall asleep than persons of opposite characteristics."

BOTH SIDES NOW HEARD

IN REFERENCE TO CASES OF "BLACK DIPHTHERIA" HERE.

It is Stated That Two More Cases Have Been Reported to the Board of Health—What Dr. R. Loughran and Albert Mauterstock Have to Say This Day.

The statements made in these columns last evening by Dr. Keefe and Albert Mauterstock in reference to cases of alleged "black diphtheria" Downtown and alleged gross negligence of the Board of Health in the premises, is the principal topic of conversation in this City.

TWO MORE CASES REPORTED.

Two new cases of diphtheria have been reported to the Board of Health—one on Pierpont-street and the other on Union-avenue. Sanitary Inspector TenBroeck made an official visit to the houses to-day. It is also reported that there is a case of malignant diphtheria at Kingston Point.

WHAT DR. LOUGHRAN SAYS.

The following communication was received by THE FREEMAN to-day from Health Officer R. Loughran, M. D.:

KINGSTON, Aug. 16, 1889.

EDITOR FREEMAN:

Sir:—In yesterday's issue of your paper complaint is made by Albert Mauterstock that the Board of Health is "neglecting its duty," etc. Judging from his statement this would appear to be true. What are the facts? One of the requirements of the Board as passed and published by it is as follows:

> § 5. Every physician practicing in said City shall report in writing to the Health Officer any and every case of cholera, varioloid, small-pox, typhus, ship or yellow fever, or of any contagious, malignant or infectious disease, or of recent and dangerous exposure thereto, which shall come under his treatment or observation in said City, immediately after the fact shall have become known to him.

The case referred to by Mr. Mauterstock was first seen—according to the certificate on file in the Clerk's office—by the attending physician, on August 11 and died on August 13 at 7 A. M. This case was never reported as requested by the above section of Sanitary Code, but on Tuesday, August 13, 11 hours after death, was reported to the Clerk of the Board. The attending physician thus not only neglecting to report to the proper officer of the Board at all, but reporting as he did to the Clerk 11 hours after death instead of immediately on learning the disease of the child, after he was called, as required by law. As the Executive Officer of the Board, I had no knowledge of the case until after the burial of the child, and until attention was called to it by the opinion of the Board given by Mr. Mauterstock in the paper last evening. According to the mortuary record of this City the physician attending this case has had frequently others of like nature, not one of which has ever been reported to me as Health Officer, according to requirement of law, during my term of occupancy of the office. This same physician says in THE FREEMAN of last evening that he has another case of like nature in the same family. This case he has not reported. Also on Tuesday a five-year-old boy on Union-avenue died from "black diphtheria" [whatever that means]. He has made no report of this case, and the Board had no knowledge of it until several days after its burial, when he refers to it in assistance of criticisms on the Board. I would like to know how the Board is to take action in matters of which they have no knowledge. What they now have and have had knowledge of for some time, is that there is one physician in town who is and has been for a long time grossly neglecting his duties and the Board have neglected their duty in not bringing him up with a round turn long ago, thus shutting off this source of claimed neglect on their part. The statement of Mr. Mauterstock that a public funeral was held in the case referred to by him was incorrect. Mr. Wachmeyer, the undertaker in charge, informs me that none but the family and a Minister were present. The efficient execution of all law, especially that pertaining to Boards of Health, depends greatly on the good will and co-operation of the community in which they are to be enforced, but when those whose duties are to assist in the enforcement, block the way instead, it makes it, to say the least, up-hill work. As Mr. Mauterstock seems to be anxious for his neighbors' welfare, I would suggest to him that in pursuance of this very credible zeal he take means to abate the nuisance arising from the smoke-stack over his manufactory on Union-avenue, and thereby show to his neighbors a practical application of his philanthrophy.

Very Respectfully,
R. LOUGHRAN, M. D.,
Health Officer, City of Kingston.

WHAT MR. MAUTERSTOCK SAYS.

Albert Mauterstock to-day requested THE FREEMAN to say this: "I reiterate the statement I made yesterday in regard to the Matheis girl's funeral being a public one. The door of the house was open for any one to attend. Five or six carriages followed the remains to the cemetery. If that was not a public funeral then I would like to know what it was? The man living down stairs was there and afterward tied the bonnet strings of a little girl he met in the street. I have a family to protect and have right to feel incensed."

WHAT DR. A. HUHNE SAID.

Dr. Augustus Huhne said this forenoon that there are numerous cases of fever here. The disease is remittent, with a tendency to develop into typhoid. He also said that five employes in a factory in the Fifth Ward were ill with it, and he was inclined to believe that the more or less open sewer that runs from Gross' Pond has something to do with it.

HUDSON RIVER RIPPLES BY MAIL, ETC.

News on the East and West Banks of the Hudson and Inland.

An exciting school election was held in Cornwall yesterday. Fifty women voted. Leading society ladies brought out their carriages and carried their friends to the polls. Free text books and two new Trustees were the results of the ladies' efforts. A feature of the excitement over the election was the publication of a letter in a local newspaper casting reflections on the honesty of some members of the outgoing Board in the expenditure of school money during the past year. This led to the appointment of the Rev. Lyman Abbott, as one of an Investigating Committee, who reported to-day that they find the accounts all right, and no crookedness is to be found. A suit for damages against the paper publishing the letter referred to is threatened.

Nyack is afflicted with the peddler nuisance. The other day a peddler entered the door of a residence without invitation, and went out through a window. The force was furnished by a burly gardener.

Haviland, Pastor of St. James M. E. Church, officiated. There was a large attendance. Rondout Lodge, No. 343, F. & A. M., of which the deceased had been a member for many years, was present, and the pall-bearers were from its ranks, as follows: J. H. Allen, William Hutton, William Winter, A. A. Crosby, Richard Thorpe and James G. Tubby. The deceased was interred with Masonic honors, Past Master John B. Alliger officiating as Chaplain. The interment was in Montrepose Cemetery.

The following is "going the rounds:" "There are now five comets, all of them discovered this year, under observation by astronomers. Of these, four are so small that they will remain telescopic, but it is said that those with very keen eyes may, on clear nights, faintly discover the other comet by looking for it carefully about 8:45 P. M., in the south-western heavens. The comet is a little to the west of and a little above a very bright star, Spica, in the constellation Vego. The star is the only bright one in the western heavens, and cannot be mistaken. The comet seems like a tiny nebulous mass, but if an opera-glass is used it becomes much more plainly visible."

A certain Uptown woman is too shrewd to be caught by the "husband sends for his overcoat swindle." A stranger stopped at her house the other day and inquired for her husband and was told where he was "away at work." About an hour afterwards the stranger returned and said he had seen the husband and he had told him to tell her to give him an overcoat "to clean." The woman told the man in plain words that he was a fraud and sent him away. And she was right!

The late Judge Westbrook was a good friend of "Boot" VanSteenburgh. When "Boot" heard of the Judge's death he showed much sorrow, and said: "Theod was the best friend I had." During the past few years "Boot" has not traveled outside of Ulster County as much as usual. Last summer he was frequently at "Aunt 'Trene's Lake," where he earned many an honest penny rowing a boat for visitors. A story of "Boot" and his ways will be printed in these columns to-morrow.

A "housewife" writes: "One of the best ways to serve corn is to cut it from the cob, and stew it for 15 or 20 minutes, when it can be seasoned by adding a tablespoonful of flour and one of butter rubbed to a paste, half a pint of sweet milk, and salt and pepper to taste. The corn should be allowed to boil two minutes after the seasoning is added—the quantity of milk, butter and flour given is for one dozen ears."

LOCAL SPORTING MATTERS IN BRIEF

Races on Poughkeepsie and Ellenville Driving Parks—A Question of Distance.

The question is sometimes asked how much further does a horse or a bicycler travel when going on the "outside" of the track of the Kingston Driving Park. The track measures half a mile and has two straight sides, with sharp curves at the ends. The difference, therefore, in distance would be caused by these corners. A civil engineer says that the outer line of the track is about 190 feet further than the inner. This would make a difference on a mile of 380 feet.

Two pacing horses owned at Accord will race on the Ellenville Driving Park on August 24 for a purse of $150. F. Cronk names b. m. "Mag" and D. Friedman b. g. "Trim"; best two heats in three.

The entries for the Grand Circuit trotting meeting at Poughkeepsie next week foot up over 100, not including those for the two $5,000 stake races for the 2:30 and 2:24 classes.

The horse trot announced for yesterday afternoon on the Kingston Driving Park did not "come off" owing to rain. It was postponed until to-morrow afternoon.

Concerning Æolian Harps.

A correspondent who inquires about an "æolian harp" is informed that it is a musical instrument made by the Greeks many centuries ago, and hung among the trees, or where the wind could blow upon it, making a low, soft, musical sound. The *Baptist Weekly* tells how to make one, which is easily done and inexpensive, for most of the material can be found about the house:

> Wax a piece of buttonhole twist about two and one-half feet long; tie each end strongly to a small peg, and thrust the pegs down the crevice between the two sashes of your southern or western windows, stretching the silk as tightly as possible. It will surprise you the sweetness and variety of the tones the wind will bring from it. Having done this you may be moved to go further and prepare a more elaborate æolian harp. Take some quarter inch wood and make a box the length of your window frame, four or five inches deep and six or seven inches wide. Bore a few small holes in a circle near what will be the upper side of the back of the box when placed in the window with the open side of the box, fasten two bridges like violin bridges, one at each end, and stretch on them several strings of fine cat-gut, contriving a series of screw pins to aid in the tight-stretching necessary, and allow of their being tuned to one note. Then raise your sash on the windy side of the house, and the wind passing through the hole and over the strings will, in its rising and falling, make very sweet music.

"The Statistics of Sleep."

It is stated that "statistics of sleep may not prove anything of importance, but they are interesting. According to statistics prepared in Russia, the need of sleep is greater in women than in men, the duration of sleep being longer and the percentage of tired morning and evening and of not tired being three to two and two to three respectively as compared to the men. Students sleep longer and are less tired than other men. The time needed to fall asleep is about the same in all three classes—20.8 minutes for the men, 17.1 minutes for students, and 21.2 minutes for women. In each case, however, it takes longer for those who are frequent dreamers and light sleepers to fall asleep than persons of opposite characteristics."

Dates of Fairs.

The following fairs are announced: Catskill Mountain Agricultural Society, Margaretville, August 28, 29 and 30; Greene County, Cairo, September 4, 5 and 6; Eastern Dutchess, Amenia, September 3, 4 and 5; Columbia County, Chatham, September 10, 12 and 13; Columbia Agricultural and Horticultural Association, Hudson, September 17, 18, 19 and 20; Delaware Valley Agricultural Society, Walton, September 10, 11, 12 and 13; State Fair, Albany, September 12, 13, 14, 16, 17, 18 and 19; Ulster County, Ellenville, September 17, 18 and 19; Dutchess County, September 24, 25, 26 and 27.

A Canal Boy Drowned.

At about 3 o'clock yesterday afternoon a boy named Thomas McGee, employed by William Leahy, Captain of Delaware & Hudson Canal boat No. 693, fell into the Rondout Creek on the outside of the "Island Docks" and was drowned. The Coroner's Jury rendered a verdict of accidental drowning.

Off for the Catskill Mountains.

This forenoon the Gould yacht Atalanta arrived at the mouth of the Rondout Creek with George Gould and wife on board. Later on Mr. Gould went to Furlough Lake in company with Samuel G. Dimmick, and Mrs. Gould proceeded to the Hotel Kaaterskill.

BOTH SIDES NOW HEARD

IN REFERENCE TO CASES OF "BLACK DIPHTHERIA" HERE.

It is Stated That Two More Cases Have Been Reported to the Board of Health—What Dr. R. Loughran and Albert Mauterstock Have to Say This Day.

The statements made in these columns last evening by Dr. Keefe and Albert Mauterstock in reference to cases of alleged "black diphtheria" Downtown and alleged gross negligence of the Board of Health in the premises, is the principal topic of conversation in this City.

TWO MORE CASES REPORTED.

Two new cases of diphtheria have been reported to the Board of Health—one on Pierpont-street and the other on Union-avenue. Sanitary Inspector TenBroeck made an official visit to the houses to-day. It is also reported that there is a case of malignant diphtheria at Kingston Point.

WHAT DR. LOUGHRAN SAYS.

The following communication was received by THE FREEMAN to-day from Health Officer R. Loughran, M. D.:

KINGSTON, Aug. 16, 1889.

EDITOR FREEMAN:

Sir:—In yesterday's issue of your paper complaint is made by Albert Mauterstock that the Board of Health is "neglecting its duty," etc. Judging from his statement this would appear to be true. What are the facts? One of the requirements of the Board as passed and published by it is as follows:

> § 5. Every physician practicing in said City shall report in writing to the Health Officer any and every case of cholera, varioloid, small-pox, typhus, ship or yellow fever, or of any contagious, malignant or infectious disease, or of recent and dangerous exposure thereto, which shall come under his treatment or observation in said City, immediately after the fact shall have become known to him.

The case referred to by Mr. Mauterstock was first seen—according to the certificate on file in the Clerk's office—by the attending physician, on August 11 and died on August 13 at 7 A. M. This case was never reported as requested by the above section of Sanitary Code, but on Tuesday, August 13, 11 hours after death, was reported to the Clerk of the Board. The attending physician thus not only neglecting to report to the proper officer of the Board at all, but reporting as he did to the Clerk 11 hours after death instead of immediately on learning the disease of the child, after he was called, as required by law. As the Executive Officer of the Board, I had no knowledge of the case until after the burial of the child, and until attention was called to it by the opinion of the Board given by Mr. Mauterstock in the paper last evening. According to the mortuary record of this City the physician attending this case has had frequently others of like nature, not one of which has ever been reported to me as Health Officer, according to requirement of law, during my term of occupancy of the office. This same physician says in THE FREEMAN of last evening that he has another case of like nature in the same family. This case he has not reported. Also on Tuesday a five-year-old boy on Union-avenue died from "black diphtheria" [whatever that means]. He has made no report of this case, and the Board had no knowledge of it until several days after its burial, when he refers to it in assistance of criticisms on the Board. I would like to know how the Board is to take action in matters of which they have no knowledge. What they now have and have had knowledge of for some time, is that there is one physician in town who is and has been for a long time grossly neglecting his duties and the Board have neglected their duty in not bringing him up with a round turn long ago, thus shutting off this source of claimed neglect on their part. The statement of Mr. Mauterstock that a public funeral was held in the case referred to by him was incorrect. Mr. Wachmeyer, the undertaker in charge, informs me that none but the family and a Minister were present. The efficient execution of all law, especially that pertaining to Boards of Health, depends greatly on the good will and co-operation of the community in which they are to be enforced, but when those whose duties are to assist in the enforcement, block the way instead, it makes it, to say the least, up-hill work. As Mr. Mauterstock seems to be anxious for his neighbors' welfare, I would suggest to him that in pursuance of this very credible zeal he take means to abate the nuisance arising from the smoke-stack over his manufactory on Union-avenue, and thereby show to his neighbors a practical application of his philanthrophy.

Very Respectfully,
R. LOUGHRAN, M. D.,
Health Officer, City of Kingston.

WHAT MR. MAUTERSTOCK SAYS.

Albert Mauterstock to-day requested THE FREEMAN to say this: "I reiterate the statement I made yesterday in regard to the Matheis girl's funeral being a public one. The door of the house was open for any one to attend. Five or six carriages followed the remains to the cemetery. If that was not a public funeral then I would like to know what it was? The man living down stairs was there and afterward tied the bonnet strings of a little girl he met in the street. I have a family to protect and have right to feel incensed."

WHAT DR. A. HUHNE SAID.

Dr. Augustus Huhne said this forenoon that there are numerous cases of fever here. The disease is remittent, with a tendency to develop into typhoid. He also said that five employes in a factory in the Fifth Ward were ill with it, and he was inclined to believe that the more or less open sewer that runs from Gross' Pond has something to do with it.

HUDSON RIVER RIPPLES BY MAIL, ETC.

News on the East and West Banks of the Hudson and Inland.

An exciting school election was held in Cornwall yesterday. Fifty women voted. Leading society ladies brought out their carriages and carried their friends to the polls. Free text books and two new Trustees were the results of the ladies' efforts. A feature of the excitement over the election was the publication of a letter in a local newspaper casting reflections on the honesty of some members of the outgoing Board in the expenditure of school money during the past year. This led to the appointment of the Rev. Lyman Abbott, as one of an Investigating Committee, who reported to-day that they find the accounts all right, and no crookedness is to be found. A suit for damages against the paper publishing the letter referred to is threatened.

Nyack is afflicted with the peddler nuisance. The other day a peddler entered the door of a residence without invitation, and went out through a window. The force was furnished by a burly gardener.

Dickens' Works are the most widely read of any novels printed in any language. The popularity of Dickens is ever increasing and every person should own a full set of his works.

Charles Dickens is eminently the novelist of the people. His books teem with shafts of sparkling wit, touches of pathos, thrusts of satire; his characters are original and real as well as quaint and grotesque; he unmasks vice in all its forms. The lights and shadows of life are delineated in a thrilling and dramatic style. To own a complete set of his incomparable books is to be possessed of an inexhaustible mine of interesting literature. No person is well read who has not perused them.

The entire 15 volumes will be sent free of express or delivery charges, for only $1.00 to all paid-up subscribers to Daily or Weekly Freeman.
